MS36575-2	230	127	92	7

MATERIAL: Borosilicate or soda-lime glass in accordance with Federal Specification DD-G-541, Type I, Class B or Type II respectively.

DESIGN: Pipets shall be of one piece construction, consisting of a body and tip with a constriction near the top of the body to allow for cotton plugging. The top and tip portion shall be free from any sharp edges.

NOTES:
1. Items differing from this Military Standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements as specified herein.
2. Referenced document shall be of the issue in effect on date of invitations for bid.

APPROVED 14 July 1969 REVISED

This military standard is approved by the Department of Defense and is mandatory on all activities. Selection for all new engineering and design applications and for repetitive use shall be made from this document.
