MILITARY STANDARD

HALOGENATED HYDROCARBONS SOLVENTS

TECHNICAL GRADE

TO ALL HOLDERS OF MIL-STD-610A:

1. MAKE PEN AND INK CHANGES OR ADD NEW PARAGRAPHS TO THE FOLLOWING PAGE.

Page 6, paragraph 4.4, delete and substitute:

"4.4 Safety. Personal Protective Measures. a. Respiratory Protection. Respirators approved by NIOSH for vapors of the solvents should be used for intermittent exposure or for supplementing other control measures (refer to TBMED223). b. Skin Protection. Personnel using solvents should be provided with and required to use impervious gloves, sleeves, and aprons when indicated. Face shields must be provided and worn whenever splashing may occur. Protective creams and ointments, commonly known as "barrier creams", may be of value in certain cases. (Refer to TBMED35)."

Page 6, paragraph 4.5, delete and substitute:

"4.5 Shelf life. Factors such as moisture, temperature, type and condition of container, exposure to sunlight and the atmosphere cause variations in shelf life. Ideal storage conditions are outlined for each item. An approximate period of time after which the material will no longer be suitable for its intended use is also presented. The term "cool" denotes temperatures from above freezing up to 110 degrees Fahrenheit when stored out of direct sunlight. The term "dry" is usually used to denote an area where condensation does not come in contact with the packaged or contents (for example, storing on pallets away from walls in an enclosure or building). Periodic examinations of the containers or material should be made more frequently when storage conditions vary from the ideal. For applications where quality may be critical each compound should be analyzed prior to use. All the chemicals covered in this standard are solvents and should therefore be stored away from plastics and rubber. Most of these chemicals are volatile and should be stored under good ventilation and kept tightly sealed. Shelf life is dated from the date of manufacture. All chemicals in this standard shall not be older than one year from the date of manufacture when purchased except where specified otherwise under storage data."

2. RETAIN THIS NOTICE AND INSERT BEFORE TABLE OF CONTENTS.

3. Holders of MIL-STD-610A will verify that page changes and additions indicated above have been entered. This notice page will be retained as a check sheet. This issuance, together with appended pages, is a separate publication. Each notice is to be retained by stocking points until the Military Standard is completely revised or canceled.
