"4.5 Responsibility for inspection.- Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified, the supplier may utilize his own facilities or any commercial laboratory acceptable to the Government. The Government reserves the right to perform any of the inspections set forth in the specification: where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

"4.5.1 Quality control system.- The supplier shall provide and maintain a quality control system acceptable to the Government. The system of quality control shall be in accordance with MIL-Q-9858 and as specified in 4.5.1.1 through 4.5.1.3.1. The supplier is in no way relieved of the final responsibility to furnish vacuum pumps meeting the requirements of this specification.

"4.5.1.1 Description of procedures.- Procedures shall be assembled in manual form and shall indicate organization and responsibility for the control of quality.

"4.5.1.2 Inspection during manufacture.- The supplier shall establish and maintain inspection at appropriately located points in the manufacturing process, beginning with the receipt of raw materials and subcontracted parts through fabrication, assembly, testing and preparation for shipment of completed units, to assure continuous control of quality of parts, components, assemblies, and construction including welding and fabrication.

"4.5.1.3 The supplier shall provide and maintain gages, instruments and other measuring and testing devices necessary to assure that supplies conform to contract requirements. These devices shall be calibrated against measurement standards or designated measuring equipment at established periods to assure continued accuracy. The supplier shall prepare and maintain a written schedule for maintenance and calibration of such equipment based on the type, purpose and degree of usage.

"4.5.1.3.1 All instruments used in performance acceptance tests shall be calibrated before and after tests."
