FEDERAL SPECIFICATION

SEWING MACHINES, INDUSTRIAL; SINGLE-NEEDLE, HEAVY-LEATHER DUTY, MACHINE

The complete requirements for procuring the sewing machines described herein shall consist of this document and the issue in effect of Specification 00-S-256.

This detailed specification was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

1. SCOPE

1.1 Scope. This specification covers the specific requirements for a single-needle, heavy duty, 301 (lock) type stitch, industrial sewing machine for sewing heavy-leather.

2. APPLICABLE DOCUMENTS

This section does not apply to this specification.

3. REQUIREMENTS

3.1 Machine. The machine shall be furnished with a foot lifter, and an F feed mechanism. The machine shall be capable of stitching leather up to 3/4 inch (19 mm) thick and nylon webbing up to 5/8 inch (16 mm) thick. The machine shall operate up to at least 400 stitches per minute with 3 to 12 stitches per inch (3 to 5 stitches/cm). Working space to the right of the needle of not less than 11-1/2 inches (292 mm) and not greater than 13 inches (330 mm). A bobbin winder, operated by power or hand, shall be provided. A pedestal stand 31 to 33 inches (787 to 638 mm) shall be provided with motor platform, flywheel, friction clutch, and brake arranged so that starting and stopping of the machine may be controlled by a foot treadle. The machine shall be nonautomatically lubricated. Round and flat belt shall be furnished.

Check the source to verify that this is the current version before use.

4. QUALITY ASSURANCE PROVISIONS

4.1 Test. Each machine shall be operated for not less than 10 minutes. Failure of the machine to meet the stitching requirements for material thickness, machine speed and stitching range as specified in 3.1 shall constitute failure of this test.

5. PREPARATION FOR DELIVERY

This section does not apply to this specification.

6. NOTES

6.1 Intended use. The machine shall be suitable for stitching light, medium, and heavy leather straps and nylon webbing.

6.2 Ordering data. In addition to the ordering data of 6.2 of the general specification, the purchaser should specify the title, number and date of this specification.
