FEDERAL SPECIFICATION

SEWING MACHINE INDUSTRIAL;

TACKING MACHINE

The complete requirements for procuring the sewing machines described herein shall consist of this document and the issue in effect of Specification 00-S-256.

This detailed specification was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

1. SCOPE

1.1 Scope. This specification covers the specific requirements for an industrial sewing machine for large bar tacking, using type 301 and 304 lock stitch types.

2. APPLICABLE DOCUMENTS

This section does not apply to this specification.

3. REQUIREMENTS

3.1 Machine. The machine shall operate at not less than 1,200 stitches per minute. The machine shall be capable of making bar tacks from at least 1/8 to 5/8 inches long (3 to 16 mm long), providing a total of 28 stitches (8 staying, 17 covering and 3 tying). The arrangement shall provide for adjusting the length of the tack within the above range and the width of the tack up to 5/32 inch (4 mm). The machine shall be equipped with a cylinder type bed. The machine mounting shall be nonsubmerged and nonautomatically lubricated. The machine shall stitch the required kind and number of stitches, stop automatically, and cut the threads close to the work after stitching when tested as specified in 4.4.1.2.

Check the source to verify that this is the currentversion before use.

4. QUALITY ASSURANCE PROVISIONS

4.1 Test. Each machine head shall operate on heavy weight fabric for not less than five cycles. Failure of the machine to meet the operational requirements as specified in 3.1 shall constitute failure of this test.

5. PREPARATION FOR DELIVERY

This section does not apply to this specification.

6. NOTES

6.1 Intended use. The machine shall be suitable for making bar tacks in belt loops, pockets, fly or trousers, and pockets of coats or jackets.

6.2 Ordering data. In addition to ordering data of 6.2 of the general specification, the purchaser should include the following information:

(a) Title, number and date of this specification.

Custodians:

Army - GL
Air Force - 99

Review activity:

DLA - GS

User activities:

Navy - SA, MC

Preparing activity:

Army - GL

Civil Agency Coordinating Activities:
