FEDERAL SPECIFICATION

VEGETABLE CUTTING AND SLICING MACHINES (ELECTRIC); AND TABLE (FOOD PREPARATION)

This amendment, which forms a part of Federal Specification 00-V-205H, dated 1 February 1977, was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all FEderal agencies.

PAGE 6

3.4.6 Delete and substitute:

"3.4.6 Table, food preparation. Class 1 of either type machine shall be provided with a table conforming to Drawing 5-11-962. The table shall be provided with four casters, one in each corner, conforming to type II, class B, 5 inch wheel diameter, style b or c mounting optional of FF-C-77. Two casters on the same end of the table shall be provided with foot brakes as shown on the drawing. The elevating mechanism shall have rubber-tipped feet and shall have foot-actuated pedals which will lock and unlock the mechanism when they are in the fully extended position. When fully extended and locked, the elevating mechanism shall not lift the end of the table more than 1/4 inch above a level floor."

PAGE 8

3.9.1, line 6. Add the following new sentence: "Each food preparation table identification plate shall include the item name, this Federal specification number, national stock number, contract number, manufacturer's name and trade mark, and date of manufacture."

PAGE 11

4.2.3.1 Table I - Classification of visual defects. After entry entitled "Casters" add the following: Under column headed "Examine" add "Elevating mechanism;" under "Defect" add: "Not equipped with rubber feet or foot-activated pedals. Not located as specified." Under "Classification" add: "X" (major defect).
