COMMERCIAL ITEM DESCRIPTION

MEPERIDINE HYDROCHLORIDE INJECTION, USP

The General Services Administration has authorized the use of this Commercial Item Description as a replacement for Military Specification MIL-M-37537 which is cancelled.

Salient Characteristics:

Shall be Meperidine Hydrochloride Injection, USP.

Shall be in accordance with the requirements of the USP.

For Strength I, shall contain 50 mg of Meperidine Hydrochloride in one ml of injection, within the applicable assay limits.

For Strength II, shall contain 75 mg of Meperidine Hydrochloride in one ml of injection, within the applicable assay limits.

For Strength III, shall contain 100 mg of Meperidine Hydrochloride in one ml of injection, within the applicable assay limits.

For Strength I, Size 3, shall be suitable for intravenous, intramuscular, and subcutaneous administration.

All ingredients entering into the manufacture of the injection shall be of a pharmaceutical grade.

Workmanship. The injection shall be free from defects which detract from its appearance or impair its serviceability.

Unit.

Package (PG).

For Size 1, shall be supplied 1 ml in a commercially available ampul. One package containing 25 ampuls, as specified, constitutes one unit.

AMSC\NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

For Size 2, shall be supplied 1 ml in a commercially available 2 ml cartridge-needle unit (22 gage x 1-1/4 inch needle). One package containing 10 cartridge-needle units, as specified, constitutes one unit. Ten units shall be packaged together in two (2) trays of five (5) cartridge needle units each. The trays shall be of tamper-detection design that allows a single cartridge-needle unit to be removed while the other units remain securely intact. The trays shall be of a transparent nature that allows for visual inspection of the contents of the cartridge-needle units. (SEE NOTE 1).

Vial (VI).

For Size 3, shall be supplied 30 ml in a commerically available multiple dose vial. One vial, as specified, constitutes one unit.

Contractor certification. The contractor shall certify and maintain substantiating evidence that the product offered meets the salient characteristics of this Commercial Item Description, and that the product conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

Ordering data. Expiration dating required, intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order.

NOTE 1: The cartridge-needle unit shall be compatible with NSN 6515-01-245-1871, Syringe, Cartridge and 6515-01-344-8487, Injector, Tube, Plastic, Reuseable, Each.

NOTE 2: The following National Stock Numbers are covered by this document:

NSN	ITEM IDENTIFICATION	STRENGTH	SIZE
6505-00-126-9360	MEPERIDINE HYDROCHLORIDE INJECTION, 50 mg per ml, 30 ml	I	3
6505-00-454-4811	MEPERIDINE HYDROCHLORIDE INJECTION, 100 mg per ml, 1 ml, 25s	III	1
6505-00-855-6979	MEPERIDINE HYDROCHLORIDE INJECTION, 50 mg, Cartridge-Needle Unit, 1 ml, 10s	I	2
6505-00-855-6982	MEPERIDINE HYDROCHLORIDE INJECTION, 75 mg, Cartridge-Needle Unit, 1 ml, 10s	II	2
6505-00-855-6984	MEPERIDINE HYDROCHLORIDE INJECTION, 100 mg Cartridge-Needle Unit, 1 ml, 10s	III	2
