P-S-596a
AMENDMENT—3*
MARCH 3, 1949

FEDERAL STANDARD STOCK CATALOG

Section IV

(Part 5)

FEDERAL SPECIFICATION

FOR

SOAP; LAUNDRY, POWDERED

This amendment was approved on the above date by the Director, Bureau of Federal Supply, for the use of all departments and establishments of the Government, and shall become effective not later than May 15, 1949, for use in procurement initiated on or after that date. It may be put into effect, however, at any earlier date after promulgation.

*Note.—Amendment 2, which contained certain provisions intended to conserve critical or strategic materials, was canceled by Circular Letter A-105, dated November 13, 1945.

The following changes shall be made in Federal Specification P-S-596a, dated January 28, 1942:

Pages P-S-596a—2 and 3:

Section H. Delete in its entirety and substitute the following:

H. REQUIREMENTS APPLICABLE TO INDIVIDUAL DEPARTMENTS

H-1. The following departmental specifications and other publications of the issues in effect on date of invitation for bids, and special requirements, shall form a part of this specification, and shall be applicable to purchases made under this specification by the respective departments:

H-2. *Army and Navy.*—

H-2a. *Applicable specifications and other publications.*—

Joint Army-Navy Specifications:

JAN-P-110—Packaging and Packing for Overseas Shipment—Drums, Metal, 55-Gallon (for Other than Petroleum Products).

JAN-P-118—Packaging and Packing for Overseas Shipment—Sacks, Paper, Shipping, Multiwall.

U. S. Army Specification:

100-2—Standard Specification for Marking Shipments by Contractors.[1]

[1] Applicable only to Army purchases.

Navy Department Specification:
General Specifications for Inspection of Material.[3]
Bureau of Supplies and Accounts Publication:
Navy Shipment Marking Handbook.[3]

(Copies of specifications required for Army purchases may be obtained upon application to the procuring agency. Both the title and identifying symbol or number should be stipulated when requesting copies.

(Copies of Federal specifications and Joint Army-Navy specifications required for Navy purchases. Navy Department specifications, and the Navy Shipment Marking Handbook may be obtained without cost upon application to the Bureau of Supplies and Accounts, Navy Department, Washington 25, D. C., except that Naval activities should make application to the Supply Officer in Command, Naval Supply Center, Norfolk 11, Va. Both the title and identifying symbol or number should be stipulated when requesting copies of specifications.)

H-2b. *Packing.*—

H-2b (1). *For domestic shipment.*—Powdered laundry soap shall be packed in bulk in standard commercial shipping containers such as multiwall shipping sacks, fiberboard drums, plywood drums, or slack kegs, conforming to Consolidated Freight Classification requirements. Net weight shall not exceed approximately 100 pounds except that for No. 1 or No. 2 slack barrels, net weight shall not exceed approximately 200 pounds. Each shipping container, except the multiwall shipping sack, shall be lined with a two-way-stretch kraft paper bag or liner having a basis weight of 45 pounds per ream (24×36—500). The liner shall be unwaxed and shall have a minimum of 15 percent stretch in each direction.

H-2b (2). *For overseas shipment.*—Powdered laundry soap shall be packed in bulk multiwall paper shipping sacks conforming to the requirements of Joint Army-Navy Specification JAN-P-118, type A or B, style 2X (50 pounds) or style 14X (100 pounds).

H-2b (2) a. Alternatively, powdered laundry soap may be packed in bulk in single-trip metal drums having full removable heads conforming to the requirements for drums for semi-solids or solids, of Joint Army-Navy Specification JAN-P-110. Minimum thickness of the metal shall be not less than 20 gage and the net weight of contents shall not exceed approximately 200 pounds. Where the size of the drum and the correct head space to be maintained permits greater quantities to be packed, authorization is granted for the deviation, provided the gross weight does not exceed the limitation set forth in table II of Joint Army-Navy Specification JAN-P-110. Each metal drum shall be provided with a two-way-stretch creped kraft paper bag or liner having a basis weight of 45 pounds per ream (24×36—500). The creped kraft liner shall be unwaxed and shall have a minimum of 30 percent stretch in each direction.

[3] Applicable only to Navy purchases.

H-2c. *Marking.*—

H-2c (1). *Army.*—Each shipping container shall be marked in accordance with the requirements of U. S. Army Specification No. 100-2. Domestic multiwall shipping sacks shall be marked "NOT FOR OVERSEAS SHIPMENT."

H-2c (2). *Navy.*—In addition to any special marking required by the contract or order, marking of interior packages and shipping containers shall be in accordance with the requirements of the Navy Shipment Marking Handbook.

H-2d. *Navy rejection.*—Powdered laundry soap, when delivered, must be in strict accordance with the specifications. Failure to meet any of the requirements of the specifications shall be cause for rejection.

H-2e. *Ordering information.*—Requests, requisitions, schedules, and contract or orders should specify whether the subject commodity is to be packed and shipping containers marked for domestic or overseas shipment. (See pars. H-2b and H-c.)
