COMMERCIAL ITEM DESCRIPTION

LAMP, INCANDESCENT (Subminiature, Trade No. 6839)

The General Services Administration has authorized the use of this commercial item description.

This description covers a subminiature incandescent lamp.

Salient characteristics.

Bulb - T-1, 1/8 inch (3mm) diameter.
Rated volts - 28.0
Amperes - 0.034
Mean spherical candle power approximately - 0.13
Base - Sub-midget flanged

Regulatory requirements. The offeror/contractor is encouraged to use recovered materials in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. The preservation, packing, labeling, and marking shall be as specified in the contract or order.

Preproduction inspection. One package of lamps, produced using the same tooling, production, and assembly methods that are used for production lots, shall be submitted for examination and test in accordance with the above requirements. Documentation consisting of the certification and test data shall be presented for examination during performance of the preproduction inspection. Failure of the preproduction samples to pass the examination of one or more of the tests, the lack of required documentation, or failure of the documentation to substantiate conformance to the requirements of this CID shall be cause for rejection.

Notes. The commercial item certification clause is not required when this commercial item description is used for procurement.

The National Stock Number (NSN) for this item is 6240-00-143-6558.

Military Coordinating Activity

None. DoD has waived coordination on this commercial item description until further notice.
