COMMERCIAL ITEM DESCRIPTION

CALCULATING MACHINE (DESK TOP, 10 DIGIT, 1 MEMORY, PRINT/DISPLAY, TWO-COLOR PRINT)

This commercial item description covers a general purpose, non-programmable, desktop size calculating machine intended for commercial office use.

Salient characteristics:

Dimensions (minimum): 6 inches in width, 9 inches in length.

Power: 110-120 volt, AC, 60 Hz, or battery powered with adapter for 110-120 volt, AC, 60 Hz, operation.

Display: 10 digit capacity.
Digit height (minimum) - 1/4 inch (6.35mm).

Printer: 10 digit capacity.
Digit height (minimum) - 1/8 inch (3.75mm).
Paper type - regular.
Paper width (minimum) - 2 1/4 inches.
Two-color printing (negatives in red); entries and answers.

Keyboard: Standard 10 digit (extra keys such as 00, 000, are acceptable) in addition to those keys required to perform functions required by this description.

General requirements, functions, and features:

Capability to add, subtract, multiply and divide.

Capability to clear entry only.

Capability to clear entire contents of working register.

Provision to alert operator to overflow, i.e., when number entered or answer exceeds machine capability.

FSC 7420

Constant for multiplication and division.

Negative indicator for negative entries or results.

Total and subtotal functions.

Floating decimal in entry and answer.

Add mode - fixed at 2.

Percent key which provides add-on and discount capabilities either automatically or on subsequent depression of no more than two additional keys.

Rounding - minimum capability of ROUND OFF.

Minimum of two-key rollover.

Memory - minimum of one (1) independent addressable memory with a minimum of four (4) memory keys - M+, M-, MR, MC.

Punctuation - comma or triplet spacing, in display and print mode.

Buffered keyboard.

Item counter.

Non-add key (regular or date format acceptable).

Automatic subtotal print from display to printer when calculations are performed with only display on with subsequent switch to printer.

Operating manual - a copy of the operating instructions will be furnished with each calculating machine.

Safety: Compliance with UL Standard No. 114.

The issue of UL 114 in effect on the date of the solicitation shall be used to determine compliance with stated requirements.

Workmanship. Calculating machine shall be free from faulty construction or any characteristic or defect which affects appearance, serviceability, durability, or which may constitute a hazard to the user.

Regulatory requirements. The offeror/contractor shall use recovered materials in accordance with Public Law 94-580, to the maximum extent practical.

Preservation, packaging, packing, labeling and marking. The preservation, packaging, packing, labeling and marking shall be as specified in the contract or order.

UL Standard No. 114 is available from Underwriters' Laboratories (UL) Inc., Publications Stock, 333 Pfingsten Road, Northbrook, IL 60002.

NOTE: Characteristics reflected in this description have been determined to be the minimum necessary to provide the Federal Government with an acceptable, general purpose calculating machine which will be used in an office environment. However, machines which fully conform to all the requirements specified, and which have additional features, functions, and capabilities not stated, i.e., square root, mark up, mark down, change key, etc., will be considered to be acceptable when offered in response to a solicitation for offer for this type of machine.
