COMMERCIAL ITEM DESCRIPTION

BOTTLE, SCREW CAP (Prescription)

The General Services Administration has authorized the use of this commercial item description in preference to Interim Federal Specification DD-B-585b (DSA-DM) as applicable to a 32-ounce light-resistant Type II, Style I screwcap bottles.

This commercial item description covers a 32 fluid ounce light-resistant prescription glass bottle with screwcap closure for dispensing liquid pharmaceutical preparations.

Salient characteristics:

Shall be a 32 fluid ounce nominal capacity light-resistant glass bottle with a screwcap closure, suitable for dispensing liquid pharmaceutical preparations.

Shall comply with the provisions of the Pharmacopeia of the United States (USP) pertaining to tight containers and light-resistant type NP glass containers.

The bottle shall have a narrow mouth opening, with shoulders formed by the extension of the neck into the sides of the bottle. The neck of the bottle shall have an exterior continuous type threaded finish for the screw cap closure. The sides of the bottle shall be rectangular or oval, or flat on one side and oval on the other. The capacity point of the bottle (i.e. liquid level in bottle of nominal capacity) shall not extend above bottom level of the neck or below bottom level of the shoulder. The nominal capacity of the bottle shall be indicated on the bottle. The manufacturer's commercial symbol or designation for the milliliter or fluid ounce capacity of the bottle shall be acceptable.

The screwcap closure shall be fabricated of opaque plastic and shall be fitted with an inside liner. The liner shall be secured to the inside of the screwcap in such a manner that it does not fall out. The liner shall have a facing that is impervious to water. In closure the liner shall make full contact with the upper edge of the bottle and form an effective seal against leakage.

Reference standard. Where standard is referenced herein, the issue of that standard in effect on the date of solicitation shall be used to determine compliance with stated requirements.

Workmanship. The bottle and screwcap closure shall be free from defects which detract from their appearance or impair their serviceability.

Unit. Package (PG). One package containing eighteen bottles constitute one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or

purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspections. Inspections, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Inspections and Tests. Inspections and tests shall be conducted in accordance with commercial practice to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Sampling for inspections and tests. Sampling for inspections and tests shall be conducted in accordance with commercial practice.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
