COMMERCIAL ITEM DESCRIPTION

SPECIMEN KIT, URINE

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers a kit suitable for patient collection of an uncontaminated urine specimen in military medical treatment facilities.

Salient characteristics:

Shall be a patient oriented sterile midstream urine collection kit for use by male and female patients.

The kit shall consist of:

A plastic container with a minimum capacity of 120 ml (4 ounces) and an accompanying lid which, when in place, makes the container leakproof.

Sufficient pads or swabs for cleaning and drying the area involved, with ample iodine cleansing solution. Iodophor soap towelettes shall be acceptable.

Easily understood instructions for patient use.

A suitable means for identifying the patient and specimen.

Each kit shall be supplied sterile, wrapped in an easily opened immediate see-through container and shall be disposable.

Workmanship. The urine specimen kit shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing fifty individually packaged sterile kits, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

FSC 6530

DISTRIBUTION STATEMENT A. Approved for public release, distribution is unlimited.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

The following National Stock Number is covered by this document.
