COMMERCIAL ITEM DESCRIPTION

SPECIMEN KIT, URINE

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers a kit suitable for collection of an uncontaminated urine specimen by medical personnel in military medical treatment facilities.

Salient characteristics:

Shall be a mid-stream urine collection kit oriented for use by medical personnel.

The kit shall be individually packaged in a sealed peel-open type container capable of maintaining sterility of contents and consist of the following components:

A wide-mouth specimen container, 3 ounces minimum capacity, with leakproof cap and pressure-sensitive adhesive label to identify the patient and sample.

Two medium size, interchangeable, disposable right and left hand plastic gloves.

A waterproof, plastic coated underpad.

Sufficient number of prep balls or pads for proper cleansing.

30 ml of provodine iodine solution.

Easily understood instructions for kit use. Instructions may be clearly marked on the kit container, or on an insert card, inside the container.

Each kit shall be supplied sterile, and shall be disposable.

The specimen kit shall be expiration dated for 36 months from the date of manufacture. Not more than 3 months of the expiration dating period shall have elapsed from the date of manufacture of the kit to the date of delivery to the Government.

FSC 6530

DISTRIBUTION STATEMENT A. Approved for public release, distribution is unlimited.

Workmanship. The urine specimen kit shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing twenty individually packaged specimen kits, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

The following National Stock Number is covered by this document:

6530-00-928-8509

Ordering data (Intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order).
