INTERIM COMMERCIAL ITEM DESCRIPTION

STOCKINET, SURGICAL, COTTON
6 inches by 48 inches

The General Services Administration has authorized the use of this Interim Commercial Item Description which was developed by the Defense Personnel Support Center, Directorate of Medical Materiel, DPSC-ATT, 2800 South 20th Street, Philadelphia, PA 19101, based upon currently available technical information.

This Interim Commercial Item Description covers a sterile, double-ply stockinet suitable for draping extremities during surgical procedures.

Salient Characteristics:

Shall be a sterile, double-ply, rib-knit, tubular, rolled, seamless, cotton stockinet. The stockinet shall be 6 inches wide by 48 inches long with both plies sewn closed at the cut end and the other end folded. The color shall be natural and the stockinet shall be suitable for draping extremities during surgical procedures.

The stockinet shall have 19 to 21 wales per inch and 18 to 22 corners per inch. The stockinet tube shall be rolled from the inside out starting with the open end and ending with the closed sewn end.

The shape of the rolled stockinet shall be that of a donut with the closed sewn end in the cenneter. The rolled stockinet shall be capable of being readily deployed over an extremity.

FSC 6510

DISTRIBUTION STATEMENT A. Approved for public release, distribution is unlimited.

Check the source to verify that this is the currentversion before use.

The stockinet shall be stretchable in the width (course) direction. The minimum weight of the double-ply stockinet shall be 0.24 pounds per yard. The minimum elongation in the width direction of a single-ply of material shall be 270 percent when tested by a suitable, accurate, and reproducible test method.

Test and examination shall be conducted to determine compliance with all specification requirements. Test methods shall be suitable, accurate, and reproducible.

Workmanship. The stockinet shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). Each stockinet shall be double wrapped. Outer package shall be a peel-open type container capable of maintaining sterility of the contents unless the package is damaged or opened. One package containing 10 individually packaged stockinets, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.
