COMMERCIAL ITEM DESCRIPTION

BAG, BIOHAZARD DISPOSAL

The General Services Administration has authorized the use of this Commercial Item Description.

This Commercial Item Description covers a heavy duty polypropylene disposable bag suitable for autoclaving biologically contaminated material prior to disposal.

Salient characteristics:

The biohazard disposal bag shall be a heavy-duty, puncture-resistant, polypropylene bag capable of withstanding autoclave temperatures up to 300°F (148°C) without softening, melting, or breaking. The bag shall be of tubular construction to prevent splitting after autoclaving and shall have a bottom heat seal. Seams running along the length of the bag are not acceptable.

The bag shall have the following nominal dimensions:

24 inches (60.96 cm) wide
36 inches (91.44 cm) long
0.002 inch (2.0 mils) thick

The bag shall be labeled in a fluorescent orange or orange-red color to signify a biohazard. A biological hazard warning symbol in accordance with OSHA regulation 1910.145 shall be used on the bag. The symbol design shall be a fluorescent orange or orange-red and approximately 4 inches square, including a black background.

The symbol shall be located within an orange or orange-red rectangle a minimum of 9 inches by 11 inches in size, and containing the following minimum words and letter heights:

AMSC N/A FSC 6530

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

Word	LETTER HEIGHT
Caution	1/4 inch
Biohazard bag	5/8 inch
For autoclaving and disposing of hazardous Contaminated materials	5/32 inch 1/2 inch

Within the rectangle, a light colored space approximately 6 inches by 1-1/2 inches shall be provided for writing identification and instructions.

As an alternate, an all orange-red bag shall be acceptable, providing the above symbol, wording, and writing space requirements are met. The color shall not be faded, inconsistent, or incomplete.

Each package of biohazard bags shall be supplied with enough wire reinforced ties to secure each bag.

The bag shall not be ripped, torn, or otherwise unusable, the bag shall be clean.

Workmanship. The biohazard disposal bag shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing 200 biohazard disposal bags, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Tests. Tests shall be conducted to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Sampling for examination. Sampling for examination shall be conducted in accordance with MIL-STD-105, with an AQL of 1.0 (percent defective) and an inspection level of II. The unit of product for examination purposes shall be one biohazard disposal bag as specified in this description.

Defects.

Bag is not a heavy-duty, puncture resistant bag, 2.0 mils thick.

Bag not of tubular construction.

Bag not heat sealed on bottom.

Bag not 24 inches by 36 inches.

Bag not labeled in accordance with OSHA regulation 1910.145.

Bag is ripped, torn, or otherwise unusable.

Wire reinforced bag tie not supplied.

Symbol letter heights not correct.

Bag is not clean.

Sampling for tests. Sampling for tests including dimensional test, shall be conducted in accordance with MIL-STD-105, with an AQL of 2.5 (percent defective) and inspection level of S-3. The unit of product for test purposes shall be one biohazard disposal bag.

Tests.

Autoclave Test.

Filled bag shall be closed with wire reinforced tie and autoclaved at 300°F (148°C) minimum. After normal autoclaving is completed, bag shall be emptied and inspected for damage. Any part of the bag softening, melting or breaking shall constitute a major defect.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:

6530-01-107-5798

Ordering data. Intermediate/exterior package quantities, labeling, and marking must be specified in the contract and/or order.

INSTRUCTIONS: In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 6, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 8 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
