INTERIM COMMERCIAL ITEM DESCRIPTION

OTOSCOPE, BRUENING

The General Services Administration has authorized the use of this interim commercial item description which was developed by the Defense Personnel Support Center, Directorate of Medical Materiel, DPSC-ATT, 2800 South 20th Street, Philadelphia, PA, 19101, based upon currently available technical information.

This interim commercial item description covers an aural magnifier, anastigmatic of the Bruening design, suitable for use in endaural procedures.

Salient characteristics.

Shall be an aural magnifier, anastigmatic, of the Bruening design, suitable for use in endaural procedures. Shall be supplied with a diagnostic head, an operating head, six specula, a suitable elastomeric bulb with tubing and a case. The diagnostic head shall be supplied with a magnifying lens and shall be 22 mm in diameter with an overall length of 28 mm. The operating head shall be provided with a cutout shaped for closure by thumb so it can be used as a pneumatic diagnostic head as well. The head shall be 22 mm in diameter with an overall length of 28 mm. Specula shall be furnished in sizes 00 to 4 with diameters of 2.5 mm, 3 mm, 5 mm, 6 mm, 7 mm and 8 mm respectively with an overall specula length of 34 mm. The case shall be of suitable size to display the components properly for ease of use. Cushioning material shall be provided in the top and bottom of the case with indentations for each component.

Material. Metal parts shall be fabricated from corrosion-resisting steel or chrome plated brass.

AMSC N/A FSC 6515

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Workmanship. The Bruening otoscope shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Each (EA). One otoscope, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Tests. Tests shall be conducted to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Sampling for tests. Sampling for tests shall be conducted in accordance with MIL-STD-105 and as specified herein. The unit of product for test purposes shall be one Bruening otoscope.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:
