COMMERCIAL ITEM DESCRIPTION

TETRACYCLINE HYDROCHLORIDE CAPSULES

The General Services Administration has authorized the use of this Commercial Item Description as a replacement for Military Specification MIL-T-37689 which is cancelled.

Salient characteristics.

Shall be Tetracycline Hydrochloride Capsules, USP.

Shall be in accordance with the requirements of the USP.

All ingredients shall be of a pharmaceutical grade.

For Strength 1, shall contain 250 mg Tetracycline Hydrochloride per capsule within the applicable assay limits for the capsules.

For Strength 2, shall contain 500 mg Tetracycline Hydrochloride per capsule within the applicable assay limits for the capsules.

Each capsule shall be marked/embossed with a product identification code to identify the active ingredient(s), strength, and manufacturer. The materials used in marking/embossing the dosage forms shall be acceptable to the FDA. The actual code used for the product shall be left to the discretion of the supplier.

Workmanship. The capsules shall be free from defects which detract from their appearance or impair their serviceability.

AMSC N/A FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Unit.

Size I - Bottle (BT). One bottle containing 40 capsules, as specified, constitutes one unit. Bottle shall have a minimum height of 51 mm base to shoulder and shall have a child-resistant safety closure and a tamper evident seal, either inner or outer seal.

Size II - Bottle (BT). One bottle containing 100 capsules, as specified as specified, constitutes one unit.

Size III - Bottle (BT). One bottle containing 1000 capsules, as specified, constitutes one unit.

Size IV - Package (PG). One package containing 100 capsules individually sealed in blister or strip packaging of 10 capsules for unit dose, as specified, constitutes one unit.

Size V - Package (PG). Shall be supplied 20 capsules in a commercially available bottle. Bottle shall have a minimum height of 51 mm base to shoulder and shall have a child-resistant safety closure and a tamper evident seal, either inner or outer seal. One package containing 12 bottles (240 capsules), as specified, constitutes one unit.

Size VI - Package (PG). Shall be supplied 40 capsules in a commercially available bottle. Bottle shall have a minimum height of 51 mm base to shoulder and shall have a child-resistant safety closure and a tamper evident seal, either inner or outer seal. One package containing 12 bottles (480 capsules), as specified, constitutes one unit.

Size VII - Package (PG). Shall be supplied 100 capsules in a commercially available bottle. One package containing 12 bottles (1200 capsules), as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug, and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered material. The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to the degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

Ordering data. Expiration dating required, intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order.
