COMMERCIAL ITEM DESCRIPTION

SILVER NITRATE APPLICATORS

The General Services Administration has authorized the use of this Commercial Item Description as a replacement for Military Specification MIL-S-37465 which is cancelled.

Salient characteristics.

Shall be Silver Nitrate Applicators.

All ingredients shall be of a pharmaceutical grade.

Shall be a mixture consisting of Silver Nitrate (75%) and Potassium Nitrate (25%).

Shall be fused to one end of a 5-3/4 inches to 6-1/4 inches (14.60 to 15.88 cm) wooden stick.

Workmanship. The applicators shall be free from defects which detract from their appearance or impair their serviceability.

Unit. Container (CO). One container containing 100 applicators, as specified, constitutes one unit. Applicators shall be supplied in a plastic bag. Each bag shall be packaged in a suitable rigid, light resistant container capable of protecting applicators during shipment and storage.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

AMSC/NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Regulatory requirements.

Federal Food, Drug, and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction , the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal State, and local statutes, ordinances, and regulations.

Recovered material. The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to the degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

Ordering data. Expiration dating required, intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order.
