10. PREPARATION INSTRUCTIONS

10.1 Contract. This data item is generated by the contract which contains a specific and discrete work task to develop this data product.

10.2 General. This data shall be provided in two format types, hardcopy printout and magnetic tape. Either or both types will be required as noted on the DD Form 1423. The data shall contain all applicable call detail recording (CDR) parameters as specified in the applicable Equipment Performance Specification (EPS) for each call recorded.

10.3 Hardcopy Printout. The hardcopy printout may be provided in the contractor's format; however, the data must be broken out, sorted, and printed in a readable manner (i.e., plain text, no machine language or coding). Data shall be sorted by directory number and segregated by account number if account numbers are used. All printouts shall be titled.

10.4 Magnetic Tape. Data on magnetic tape shall be provided on standard 9-track, one-half inch magnetic tape using ANSI X3.22-83 or ANSI X3.39-73. The tape encoding format shall be described in sufficient detail to permit downstream processing of the tape by the Government using general purpose computers.
