DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

Public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302, and to the Office of Management and Budget, Paperwork Reduction Project (0704-0188), Washington, DC 20503.

1. TITLE	2. IDENTIFICATION NUMBER
COMMAND STATUS REPORT	DI-MISC-80159C

3. DESCRIPTION / PURPOSE

3.1 The Report provides real-time notice of mission impairment to higher headquarters. It is used to prepare briefings for command authorities.

4. APPROVAL DATE (YYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC APPLICABLE	6b. GIDEP APPLICABLE
901203	F/AFSPACECOM-LKOR		

7. APPLICATION / INTERRELATIONSHIP

7.1 This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.
7.2 This DID may be applied in any contract to acquire real-time system-oriented status reports. Copies of the reference documents may be obtained as specified in the contract.
7.3 This DID supersedes DI-MISC-80159B.

8. APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER
		F5083

10. PREPARATION INSTRUCTIONS

10.1 Reference Documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable revisions and changes, shall be as specified in the contract.
10.2 Format. The information required by this report shall be in contractor format, with contents as identified in 10.3, and transmitted by secure/non-secure means, as appropriate.
10.3 Content. The report shall include data as indicated below by subparagraph number. Entries "not used" are necessary to preserve format compatibility with other reports. All Dates/Times shall be in Julian-Date/Zulu-Time format unless otherwise noted.
10.3.1 A report number to be formulated as follows: Four-character site name + three-digit sequence number (001-999). The numbers remain in sequence, beginning with 001 on 1 Jan of each year, without regard to month or quarter. If more than 999 reports are submitted in one year, start over with 001 again. (e.g. 4th outage of year for Eglin would be EGLN004).
10.3.2 Unit designation of co-located military activity, if any.

(Continued on Page 2)

11. DISTRIBUTION STATEMENT

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

Block 10, Preparation Instructions (Continued)

10.3.3 Location where mission impairment exists (e.g. if Cheyenne Mountain Air Force Base reports an Eglin outage, location would be Eglin).
10.3.4 Facility whose mission is impaired (i.e., FPS-85, FPS-115 Communication Center, TSP-2000).
10.3.5 Equipment nomenclature of end item causing impairment or which is connected to the circuit causing the impairment (i.e. KG-84, AN/UYK-22).
10.3.6 Estimated Time of Return to Operation (ETRO): Use date/ Time. Keep in mind a realistic estimate of when service will be restored. ETROs are established by taking into consideration maintenance time, supply actions, and operational checks.
10.3.7 Date/Time outage occurred.
10.3.8 Not used.
10.3.9 Date/Time Maintenance first assigned.
10.3.10 Date/Time Maintenance arrived for work.
10.3.11 Mission affected (ZMSLWARN, ZSPACETR) per applicable command directives, e.g. Air Force Communications Command Regulation 55-2 and Supplements and Air Force Space Command Regulation 65-1.
10.3.12 Job Control Number.
10.3.13 Initials of person submitting report.
10.3.14 Initials of person receiving report.
10.3.15 Maintenance agency (or agencies) assigned to fix problem.
10.3.16 Not used.
10.3.17 Channel Code per applicable command directives, e.g. Air Force Communication Command Regulation 55-2 and Supplements and Air Force Space Command Regulation 65-1.
10.3.18 Downtime Code per applicable command directives, e.g. Air Force Communication Command Regulation 55-2 and Supplements and Air Force Space Command Regulation 65-1.
10.3.19 Outage type (Red/Yellow) per applicable directive (e.g., Air Force Communications Command Regulation 55-2, Air Force Space Command Regulation 55-23, and supplements).
10.3.20 Status of redundant (backup) equipment (for sensors, use status of other computers), if applicable.
10.3.21 Alternate means, if any, being used to fulfill mission while it is impaired.
10.3.22 Command Communications Service Designator (CCSD) and Restoral Priority (RP) for the primary circuit with the outage.
10.3.23 A short but detailed description of discrepancy.
10.3.24 CCSDs and RPs for any other circuits affected by outage.
10.3.25 Mission impact level (significant/minimal) and short description of how mission is impacted.
10.3.26 Date/Time equipment or circuit was returned to service.

Block 10, Preparation Instructions (Continued)

10.3.27 Date/Time restoral was reported, if appropriate.
10.3.28 Duration of outage in days, hours, and minutes.
10.3.29 Initials of person passing voice report, or point of contact for message report.
10.3.30 Not used.
10.3.31 A concise description of actions taken to correct the problem.
10.3.32 Not used.
10.3.33 Not used.
