COMMERCIAL ITEM DESCRIPTION
PADS, DESK

The General Services Administration has authorized the use of this commercial item description by all federal agencies.

1. **Scope:** This Commercial Item Description covers desk pads which are used as alternative writing surfaces on a desk.

2. **Salient Characteristics:**

2.1 All type pads shall have wearing surfaces with a backing material. The smoothness of the wearing surface shall be comparable to desk top linoleum. The exposed side of the backing material used shall have anti-skid qualities or materials normally used for the intended purposes. These materials shall not cause a permanent-type bond between the pad and desk. The sizes and colors shall be as specified in the contract or ordering data.

2.2 The wearing surface alone shall be 0.1 cm (.039 inch) ± 5% with an overall thickness (wearing surface and backing material) for each size of 0.2 cm (.080 inch) ± 5%.

2.3 A residual indentation shall not exceed 12% when a 22.7 kg (50 lb.) load is applied to felt-backed pads or when a 36.3 kg (80 lb.) load is applied to burlap-backed pads. The indenting cylinder shall be .64 cm (.250 inch) diameter and time of application shall be 15 minutes.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to General Services Administration, Federal Supply Service, Engineering Branch, 26 Federal Plaza, New York, NY 10278.

Check the source to verify that this is the current version before use.

2.4 **Workmanship:** The desk pads shall be free of any defects which may affect appearance or impair serviceability, including, but not limited to, superfluous coating of any kind between the wearing surface and the backing material, discoloration, scratches, blisters, crinkling, imbedded foreign matter, cracks, or warping.

3. **Regulatory Requirements:** The offeror/contractor is encouraged to use recovered materials to the maximum extent practical, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

4. **Quality Assurance Requirements:**

4.1 **Product Conformance.** The products provided shall meet the salient characteristics of this commercial item description, conform to the producer's own drawings, specifications, standards and quality assurance practices and be the same product offered for sale in the commercial market. The government reserves the right to require proof of such conformance.

4.2 **Performance Testing.**

4.2.1 **Indentation Test.** The residual indentation shall be tested in accordance with federal test method std. no. 501a method 3231 and 3221. The specimen shall not exceed 12 percent when using a 22.7 kg (50 lb.) load for felt-backed pads or a 36.3 kg (80 lb.) load for burlap-backed pads, place the end of the indenting cylinder on the wearing surface for 15 minutes. Upon completion of the test, verify compliance with paragraph 3.3.

5. **Packaging:** Preservation, packing and marking shall be as specified in the contract or order.

6. **Notes:**

6.1 **Source of Documents.** Issues of the following documents, in effect on the date of invitation for bids or request for proposal form a part of this document to the extent specified herein.

6.1.1 Federal Acquisition Regulation (FAR) may be obtained from the Superintendent of Documents, Government Printing Office, Washington. DC 20402.

6.1.2 Federal Standards and Specifications may be obtained from the General Services Administration Specifications Section (3FBO-W) in Suite 8100 at 490 L'Enfant Plaza, SW Washington DC 20407.
