* 4.1: Delete and substitute:

"4.1 Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as othewise specified in the contract or purchase order, the contractor may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

"4.1.1 Responsibility for compliance. All items must meet all requirements of sections 3 and 5. The inspection set forth in this specification shall become a part of the contractor's overall inspection system or quality program. The absence of any inspection requirements in the specification shall not relieve the contractor of the responsibility of assuring that all products or supplies submitted to the Government for acceptance comply with all requirements of the contract. Sampling in quality conformance does not authorize submission of known defective material, either indicated or actual, nor does it commit the Government to acceptance of defective material.

"4.1.1.2 All instruments used in performance acceptance tests shall be calibrated before and after tests.

"4.1.1.3 No instruments containing mercury shall be used in the manufacture or testing of any equipment destined for installation on a nuclear powered ship. This point shall be covered in the manufacturer's quality control manual. Test reports shall contain a certification signed by a responsible official of the manufacturer that no mercury containing instruments have been used in the manufacture or testing of the equipment."

* 4.2(a): Delete "Qualification" and substitute "First article".

* 4.3: Delete and substitute:

"4.3 First article tests at a laboratory. First article tests shall be conducted at a laboratory satisfactory to the Naval Sea Systems Command. The head, capacity and other characteristics of units for first article tests shall be as specified in 4.3.2 and 4.3.3."

* 4.3.1: Delete "Qualification" and substitute "First article".

* 4.3.1, second sentence: Delete "qualification" and substitute "first article".

* 4.3.2: Delete "qualification" and substitute "first article".

4.4.2, second sentence: Delete and substitute "This test shall be conducted to check operation and smoothness of running."

PAGE 13

* 4.5.3: Delete.

PAGE 14

* 6.1: Add: "(n) If first article inspection is required (see 3.1)."

* 6.2: Delete and substitute:

"6.2 First article inspection. Invitations for bids should provide that the Government reserves the right to waive the requirement for samples for first article inspection as to those bidders offering a product which has been previously acquired or tested by the Government, and that bidders offering such products, who wish to rely on such production or test, must furnish evidence with the bid that prior Government approval is presently appropriate for the pending contract."

NOTE: The margins of this amendment are marked with an asterisk to indicate where changes (additions, modifications, corrections, deletions) from the previous amendment were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous amendment.
