Page 28, paragraph 4.3.3.2.12, delete and substitute:

"4.3.3.2.12 Environmental operability (see 3.8). Each month, the first lot and every subsequent fifth lot shall be tested and sampled in accordance with Table I using test equipment specified in 4.3.4. If one or more launchers are classed defective, the lot shall be rejected, in which case all subsequent lots shall be sampled and tested until such time as two consecutive lots satisfactorily pass inspection requirements. Samples utilized for this test shall be considered as destructive test samples."
