Check the source to verify that this is the current version before use.

Notes:

1. Type V (Single Pole, Single Throw, pull-latch disconnect, normally closed), Class A (slow make and break), Grade 2 (open) of procurement specification.
2. 300 Amp resistive load, 150 Amp inductive load.
3. Force required to operate the switch shall be 13 ± 2 pounds.
4. Shall withstand a minimum overload force of 150 pounds without damage.
5. Shall not exceed a maximum weight of 17 ounces.
6. Nut shall not be coated with Black Oxide.
7. Threads shall be in accordance with screw thread standard for FED-STD-H28.
8. Dimensions are in inches. Unless otherwise specified, tolerances are ± .01 on decimals, ± 0° 30' on angles.
9. For design feature purposes, this specification sheet takes precedence over procurement documents referenced herein.
10. This specification sheet is not intended to limit construction to features other than as shown heron by dimensions, notations or referenced documents.
11. Referenced documents shall be of the issue in effect on the date on invitations for bid.
12. Marking shall consist of the part or identifying number (PIN) and Manufacturer's identification in accordance with MIL-STD-130.
