COMMERCIAL ITEM DESCRIPTION

TEMPLATE, DRAFTING: MAP SYMBOL, FOR PLASTIC SCRIBING

The General Services Administration has authorized the use of this commercial item description as a replacement for MIL-T-52015B which is cancelled.

Salient characteristics:

Design.

Description. The template shall contain military map symbol cut-outs specifically designed for use with scribing points. The template shall be as shown in figure 1 and as specified herein. The thickness of the template shall be 0.015 inch ±0.001 inch. The plastic shall transmit not less than 30 percent of incident white light.

Material. The template shall be made of rigid poly (vinyl chloride), poly (vinyl chloride-vinyl acetate) or acrylic plastic sheet.

Workmanship. The template shall be free from defects such as sharp edges, burrs, cracks, dents, tool marks, and other defects that could impair the serviceability of the template.

Regulatory requirements. In accordance with Section 23.403 of the Federal Acquisition Regulations the Government's policy is to acquire items composed of the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition without adversely affecting performance requirements or exposing the contractor's employees to undue hazards from the recovered materials.

Preservation, packaging, packing, labeling and marking. Preservation, packaging, packing, labeling and marking shall be as specified in the contractor or order.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and other data which may improve this document should be sent to: CMDR, US ARMY BELVOIR RDE CTR, ATTN SATBE TSE, 10101 GRIDLEY RD, STE 104, FT BELVOIR VA 22060-5818.

AMSC N/A FSC 6675

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

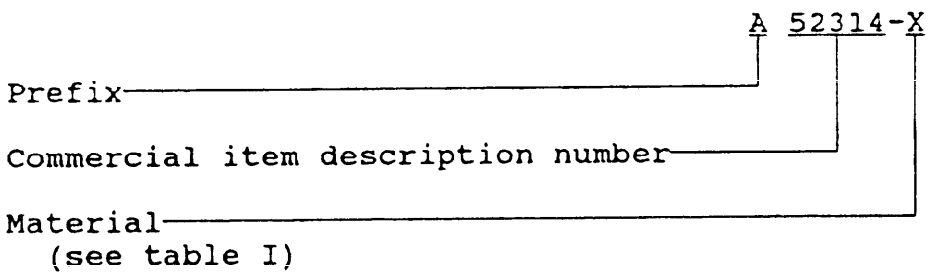

Quality assurance. The template shall be examined for the following defects. Presence of one or more defects shall be cause for rejection:

1. Design not as specified.
2. Material not as specified.
3. Workmanship not as specified.
4. Preservation, packaging, packing, labeling and marking not as specified.

Certification. The contractor shall certify that the product offered to the Government meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product as the manufacturer's current product offered by the contractor in the commercial marketplace for at least one year preceding the solicitation. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Small business. A small business that cannot meet the certification-of-commercial-item requirement of this document, may make an offer under this solicitation; and, if such small business is the apparent successful offeror, the Government may require the small business to submit a sample template. Any such template may be evaluated for this solicitation if time to contract award permits. Such evaluation would be to determine conformance to all requirements of this commyercial item description and to determine equivalency to templates available in the commercial marketplace in the areas of durability, human factors engineering, and safety. It should be noted that samples are not required unless specifically requested by the contracting officer. Note. The Government may elect not to evaluate a sample from an apparent low offeror for award for this solicitation if a determination of urgency is made by the contracting officer. The sample would then be evaluated prior to future solicitation for comparable items.

Part or identifying number (PIN). The PIN to be used for acquired to this commercial item description are created as follows:
