INTERIM AMENDMENT

TO

FEDERAL SPECIFICATION

CLEANING COMPOUND, WINDSHIELD
(SOLVENT AND ANTI-FREEZE, CONCENTRATED)

This interim amendment was developed by the General Services Administration, Federal Supply Service, Washington, DC 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Adminstration has authorized the use of this interim amendment as a valid exception to Federal Specification O-C-1901, dated March 7, 1975.

PAGE 3

Add:

Paragraph 4.2.1 Examination of unit container. The unit container shall be examined for leakage or any split, break, dent, hole, tear, puncture or other flaw which may affect serviceability. For the unit container, the Inspection Level shall be I, and the AQL shall be 2.5.

Paragraph 4.2.2 Examination of end item. The end item shall conform to 3.5 and shall have a net weight of not less than 16 ounces. For the end item the Inspection Level shall be S-4 and the AQL shall be 2.5, and for the net content the Inspection Level shall be S-2.

PAGE 4

Delete section 5 and substitute the following:

5. PREPARATION FOR DELIVERY

5.1 Packaging. Packaging shall be level A or Commercial, as specified (see 6.2).

5.1.1 Level A. Sixteen (16) ounces of cleaning compound shall be packaged in a can conforming to PPP-C-96, type V, class 5 or type VIII with a screw cap closure; or in a polyurethane bottle with a screw cap.

5.1.2 Commercial. The cleaning compound shall be preserved and packaged in accordance with normal commercial practice. The complete package shall be designed to protect the item against damage during shipment, handling, and storage.

5.2 Packing. Packing shall be level A or Commercial, as specified (see 6.2).

5.2.1 Level A. Twelve (12) filled containers shall be packed in a box conforming to PPP-B-636, class weather resistant. The box shall be fitted with separators or dividers to provide a clearance of 3/8 inch between the top of the containers and the inside of the box.

5.2.2 Commercial. The packaged cleaning compound shall be packed in containers to insure safe delivery at destination, to provide for safe redistribution by the initial receiving activity, and shall be acceptable by common carrier under National Motor Freight Classification Rules or Uniform Freight Classification Rules.

5.3 Unitization. When shipments to Government depots are full car or truck load, the packed cleaning compound shall be unitized for shipment and handling in accordance with normal commercial practice. The unitized load shall not exceed 2,500 lbs. in weight, 63 inches in height, 56 inches in length, and 45 inches in width.

5.4 Marking. Packages, shipping containers, and unitized loads (when applicable) shall be marked in accordance with Fed. Std. No. 123, or MIL-STD-129 as applicable.
