FEDERAL SPECIFICATION

HERBICIDE, SODIUM TRICHLOROACETATE

This specification was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

1. SCOPE

1.1 Scope. This specification covers one grade of sodium trichloroacetate (NaTCA (see 6.1)).

2. APPLICABLE DOCUMENTS

2.1 The following documents, of the issues in effect on date of invitation for bids or request for proposal, form a part of this specification to the extent specified herein.

Federal Specification:

UU-S-48 - Sacks, Shipping, Paper

Federal Standard:

Fed. Std. No. 123 - Marking for Domestic Shipment (Civil Agencies).

(Activities outside the Federal Government may obtain copies of Federal Specifications, Standards, and Handbooks as outlined under General Information in the Index of Federal Specifications and Standards and at the prices indicated in the Index. The Index, which includes cumulative monthly supplements as issued, is for sale on a subscription basis by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

(Single copies of this specification and other Federal Specifications required by activities outside the Federal Government for bidding purposes are available without charge from Business Service Centers at the General Services Administration Regional Offices in Boston, New York, Washington, DC, Atlanta, Chicago, Kansas City, MO, Fort Worth, Denver, San Francisco, Los Angeles, and Seattle, WA.

(Federal Government activities may obtain copies of Federal Specifications, Standards, and Handbooks and the Index of Federal Specifications and Standards from established distribution points in their agencies.)

Military Standards:

MIL-STD-105 - Sampling Procedures and Tables for Inspection by Attributes.
MIL-STD-129 - Marking for Shipment and Storage.

(Copies of Military Specifications and Standards required by suppliers in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

Federal Regulation:

40 CFR 162-180 - Pesticide Programs.

(The Code of Federal Regulations (CFR) and the Federal Register, (FR) are for sale on a subscription basis by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. When indicated, reprints of certain regulations may be obtained from the Federal agency responsible for issuance thereof.)

2.2 Other publications. The following documents form a part of this specification to the extent specified herein. Unless a specific issue is identified, the issue in effect on date of invitation for bids or request for proposal shall apply.

Association of Official Analytical Chemists (AOAC):

Official Methods of Analysis

(Application for copies should be addressed to the Association of Official Analytical Chemists, P.O. Box 540, Benjamin Franklin Station, Washington, DC 20044.)

National Motor Freight Traffic Association, Inc., Agent:

National Motor Freight Classification.

(Application for copies should be addressed to the American Trucking Associations, Inc., Tariff Order Section, 1616 P Street, N.W., Washington, DC 20036.)

Uniform Classification Committee, Agent:

Uniform Freight Classification.

(Application for copies should be addressed to the Uniform Classification Committee, Room 1106, 222 South Riverside Plaza, Chicago, IL 60606.)

3. REQUIREMENTS

3.1 Material. NaTCA shall be a solid in either powder or pellet form.

3.2 EPA registration. NaTCA shall be registered with the Environmental Protection Agency (EPA) in accordance with 40 CFR 162-180.

3.3 Purity. NaTCA shall provide not less than 90 percent NaTCA when tested as specified in 4.3.1.

3.4 Workmanship. NaTCA shall be visibly free from foreign matter and suitable for the intended use.

4. QUALITY ASSURANCE PROVISIONS

4.1 Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or order, the supplier may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure that supplies and services conform to prescribed requirements.

4.2 Quality conformance inspection.

4.2.1 Examination of preparation for delivery.

4.2.1.1 Lot. For this examination, a lot shall be NaTCA, fully packed, marked, and offered for examination at one time. Lot size shall be expressed in number of filled unit containers.

4.2.1.2 Sampling plan. Sampling shall be conducted in accordance with MIL-STD-105. Sample unit for this examination shall be one unit container. Sample size, acceptance, and rejection numbers shall be determined by general inspection level II and acceptable quality level (AQL) 6.5 percent defective, respectively. Defects shall be scored in accordance with table I.

TABLE I. Examination of preparation for delivery

Examine	Defect
Marking	Missing; incorrect; illegible; not as specified.
Packing	Not as specified.
Contents	Net contents less than specified.
Workmanship	Tear, crack, split, hole, or cut; closure incomplete or inadequate; leakage or seepage from any part of the container.

4.2.2 Examination of material and workmanship.

4.2.2.1 Lot. For this examination, a lot shall be NaTCA produced by one manufacturer, at one plant, from the same raw materials, by the same manufacturing process, and offered for examination at one time. Lot size shall be expressed in number of pounds of NaTCA.

4.2.2.2 Sampling plan. Sample size for this examination shall be one pound. Sample shall be selected by drawing equal portions at random throughout the lot. Defects shall be determined in accordance with table II. Lot shall be rejected if sample contains one defect.

TABLE II. Examination of material and workmanship

Examine	Defect
Material	Form not as specified.
Workmanship	Foreign matter visibly present.

4.2.3 Testing.

4.2.3.1 Lot. A lot shall be as specified in 4.2.2.1.

4.2.3.2 Sampling plan. Sample size for testing shall be one pound, selected as specified in 4.2.2.2. Sample portions shall be thoroughly mixed to yield a homogeneous composite and stored in a clean, dry, glass container with identifying lot number and date. All testing shall be performed on the composite sample. Lot shall be rejected if composite fails to meet any specified requirement.

4.3 Test method.

4.3.1 Purity. Determine the percent NaTCA in accordance with the AOAC method for the determination of sodium trichloroacetate in herbicides.

5. PREPARATION FOR DELIVERY

5.1 Packing. Packing shall be level A, B, or C, as specified.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T11:16Z
Check the source to verify that this is the current version before use.

5.1.1 Levels A and B. Fifty (50) pounds of sodium trichloroacetate shall be packed in a sack conforming to UU-S-48, 4-4X.

5.1.2 Level C. NaTCA, in quantities as specified shall be packed in containers to insure carrier acceptance and safe delivery at destination. Containers shall comply with Uniform Freight Classification or National Motor Freight Classification rules, as applicable.

5.2 Marking. In addition to any special marking required by the contract or order, containers shall be marked in accordance with Fed. Std. No. 123, or MIL-STD-129, as specified.

5.2.1 Labeling. Containers shall be labeled in accordance with 40 CFR 162-180.

6. NOTES

6.1 Intended use. NaTCA is a nonselective weed-grass killer. It is most effective when the soil is moderately moist. Biodegradation of NaTCA depends upon the type of soil, climate, and bacterial activity, and may take between 2 to 10 weeks. Consult local agricultural authorities for recommendations to fit local conditions whenever operating difficulties are encountered.

6.2 Ordering data. Purchasers should select the preferred options permitted herein, and include the following information in procurement documents:

(a) Title, number, and date of this specification.
(b) Level of packing required (see 5.1).
(c) Marking document required (see 5.2).

6.3 Supersession data. This document incorporates the following changes from O-S-00675.

6.3.1 Change of FSC. The Federal Supply Classification (FSC) has been changed from 6810 to 6840.

6.3.2 Change of name. The approved name for this item of supply has been changed from Sodium Trichloroacetate, Technical (TCA) to Herbicide, Sodium Trichloroacetate.

6.3.3 Change of grade. The minimum percent NaTCA has been reduced from 95 percent to 90 percent.

"DOD coordination has been waived."
