COMMERCIAL ITEM DESCRIPTION

CHEST, TOOL: CARPENTER OR COMPANY

The General Services Administration has authorized the use of this Commercial Item Description.

Abstract. This Commercial Item Description (CID) covers one type and size of wooden chest with a removable tray.

Salient characteristics.

Design. The chest shall consist of a body, lid and removable tray, and shall be equipped with handles and metal hardware. The chest shall also be equipped with a hasp, a staple plate, and suitable corner protection. The finished dimensions of the chest should be 11 inches high by 17.5 inches wide by 34 inches long. The finished dimensions of the tray should be 2 inches high by 15.9 inches wide by 14 inches long.

Construction. The construction of the chest and its component parts shall be of suitable material which will support and permit a load of approximately 150 pounds of tools to be handcarried. The material shall be corrosion and weather resistant.

Workmanship. The tool chest shall be free of burrs, slivers, splinters, rough or sharp edges, and any other defects which may affect appearance or serviceability

Beneficial comments (recommendations, additions, deletions) and any pertinent data which may be of use in improving this document should be addressed to the Commander (PSE-C) Marine Corps Systems Command, Quantico, VA 22134-5080 by using the self addressed Standardization Document Improvement Proposal (DD Form 1426) appearing at the end of this document or by letter.

AMSC N/A FSC 5140

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this CID and that the product conforms to the producer's own drawings, specifications, standards and quality assurance practices, and is the same product offered for sale in the commercial market place. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered materials. The manufacturer shall utilize recovered material to the maximum extent practicable.

Preservation, packaging, packing and marking. The tool chest shall be preserved, packaged, and packed to a degree of protection to preclude damage to containers and/or the contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, and shall conform to the applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract or order.
