COMMERCIAL ITEM DESCRIPTION

CASE, FILING, TRANSFER, (WOOD OR FIBER)

The General Services Administration has authorized the use of this commercial item description in preference to Interim Federal Specification LLL-C-00110.

This description covers transfer filing cases with detachable cover and follower (compressor), to be used for maintenance, transfer, or storage of index cards.

Sizes.

Size I - for 3 x 5-inch cards
Size II - for 4 x 6-inch cards
Size III - for 5 x 8-inch cards

Salient characteristics.

Standard Product. The tranfer filing cases furnished under this description shall be the manufacturer's standard commercial product.

Material.

Tray and cover. The basic material of which the tray and cover is fabricated shall be binder's board*, solid wood, plywood, solid fiberboard*, paperboard*,or a suitable combination thereof. The side and bottom material of the tray shall not be less than 0.090 inch thick, and front and back material shall not be less than 0.180 inch thick. The material of the cover shall not be less than 0.090 inch thick.

Covering and lining. The exterior covering material of the sides of the tray and the entire cover shall be agate marblelized paper*. The bottom outside shall be covered with black or dark blue paper. The interior lining material shall be be suitable blue or matching dark blue paper. The paper shall be of the composition, strength, and flexibility needed for these applications.

Follower assembly. The follower and rod or track shall be made of cold-rolled steel with a corrosion-resistant finish. The follower shall not be less than 0.025 inch in thickness and rod shall not be less than 0.125 inch diameter.

Label holder and pull. The label holder and pull shall be made of steel and shall be brass plated and coated with lacquer or suitable plastic coating. The label holder shall accommodate labels 2 x 1 inches plus or minus 1/16 inch in both dimensions.

Tray inside dimensions. The tray dimensions shall be as specified in the following table. A plus tolerance of 1/4 inch or a minus tolerance of 1/8 inch will be permitted in all dimensions.

Tray inside dimension (in inches)

Card Sizes	Height	Width	Depth
3 x 5	3-1/2	5-1/4	10-3/4
4 x 6	4-1/2	6-1/4	10-3/4
5 x 8	5-1/2	8-1/4	10-3/4

Design. The cases shall be designed for maintenance, transfer, or storage of index cards, and shall permit easy removal and replacement of cards without damage. Each case shall be covered and the interior shall be lined with a suitable paper as described. Each case shall have a follower (compressor) as described.

Identification marking. Each transfer case shall be permanently and legibly marked with the name or trademark of the manufacturer.

Workmanship. All cases shall be free from any defects and imperfections which affect appearance or may impair the serviceability. The bottom, corners, strips, follower, and label holder shall be properly secured. The covering and lining materials shall be neatly cemented to present a smooth and uniform appearance. The cover shall fit properly and shall open and close smoothly.

Regulatory requirements. In accordance with the section 23.403 of the Federal Acquisition Regulations, the Government's policy is to acquire items composed of the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition without adversely affecting performance requirements or exposing supplier's employees to undue hazards from the recovered materials.

Preservation, packaging, packing, labeling, and marking. The preservation, packaging, packing, labeling, and marking shall be as specified in the contract or order.

Notes. Purchaser shall specify size.

WHEN THIS COMMERCIAL ITEM DESRIPTION IS USED FOR PROCUREMENT, THE COMMERCIAL ITEM CERTIFICATION CLAUSE MUST APPEAR IN THE SOLICITATION.

*As defined in the Dictionary of Paper published by The American Paper and Pulp Association, New York, N.Y.

PREPARING ACTIVITY:

GSA - FSS
