COMMERCIAL ITEM DESCRIPTION

ALGICIDE

The General Services Administration has authorized the use of this commercial item description.

SCOPE

This commercial item description covers simazine which has been registered by EPA for control of algae and aquatic plants in ponds

Salient characteristics.

Active Ingredient:

Simazine.....not less than 80 percent

Inert Ingredient:.....not more than 20 percent

Active ingredient. The active ingredient of 2-chloro-4,6-bis-(ethylamino)-s-triazine shall be quantitatively determined by gas chromatography method described in Chapter 6 of AOAC. Failure to meet the minimum requirements listed above shall result in failure of the sample.

Registration and Labeling. This algicide shall be registered with the Environmental Protection Agency (EPA) and labeled in compliance with the most current Regulations for the Enforcement of the Federal Insecticide Fungicide and Rodenticide Act (40 CFR 162-180).

QUALITY ASSURANCE

Certification. The contractor shall certify that the product offered meets the essential characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards and quality assurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

FSC - 6840

DISTIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

PREPARATION FOR DELIVERY

Packaging, packing, and marking. The packaging and packing shall be in accordance with commercial practice and shall assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification. Marking shall be as specified in the contract or order.

NOTES

Intended use. The Simazine algicide/herbicide is intended for control of algae and several submerged and floating aquatic weeds in ponds. It is also registered for algae control in swimming pools, large aquaria, ornamental fish ponds, fountains, and farm and recreational ponds.

Treated ponds may be used for swimming 4 hours after application.

Water from treated ponds may not be used for irrigation or spraying of agricultural crops, lawns, or ornamental plantings or for watering cattle, goats, hogs, horses, poultry, or sheep or for human consumption until 12 months following treatment.

SOURCE FOR DOCUMENTS

A copy of AOAC test methods may be obtained from the Association of Official Analytical Chemists, Inc., 1111 North Nineteen Street, Suite 210, Arlington, VA 22209.

Code of Federal Regulations (CFR), may be obtained from the Superintendent of Documents, U. S. Government Printing Office, Washington, DC 20402.
