COMMERCIAL ITEM DESCRIPTION

HERBICIDE, TRICLOPYR

This commercial item description has been approved by the General Services Administration.

SCOPE AND CLASSIFICATION This commercial item description covers three types of herbicideTriclopyr fc effective control of many woody plants and broadleaf weeds.

Salient characteristics.

Type I - Water-soluble triethylamine salt formulation containing not less than 44.4 percent [360 g/L (3 lb/gal)] of active ingredient.

Type II - An oil-soluble, water emulsifiable butoxyethyl ester formulation containing not less than 61.6 percent [480 g/L (4 lb/gal)] of active ingredient

Type III - Ready to Use formulation containing not less than 16.7 percent [120 g/L (1 lb/gal)] of active ingredient

Active ingredient. The active ingredient of 3,5,6-trichloro-2 pyridinyloxyacetic acid as triethylamine salt shall l quantitatively determined by gas chromatography method as described in Chapter 6 of AOAC. Failure to meet the minimum requirements listed in the Scope and Classification above shall result in failure of the sample.

Registration and Labeling. This herbicide shall be registered with the Environmental Protection Agency (EP/ and labeled in compliance with the most current Regulations for the Enforcement of the Federal Insectic Fungicide and Rodenticide Act (40 CFR 62-180).

QUALITY ASSURANCE CERTIFICATION. The contractor shall certify that the product offered meets the sali characteristics of this description and that the product conforms to the producer's own drawing, specifica tions, standards, and quality assurance practices and is the same product offered for sale in the commer marketplace.The Government reserves the right to require proof of such conformance prior to first delive and thereafter as may be otherwise provided for under the provisions of the contract.

PREPARATION FOR DELIVERY

Packaging, packing, and marking. The packaging and packing shall be in accordance with normal commer practice and shall assure acceptance by common carrier and provide product protection against loss an damage during multiple shipments, handling, and storage.The shipping container shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification. Marking shall be as specified in the contract or order.

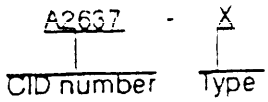

NOTES

Intended use. Triclopyr herbicide is recommended for control of unwanted woody plants, annual and pere broadleaf weeds in industrial sites, forests, non-crop areas, non-irrigation ditch banks, wildlife openi including grazed areas on these sites. It may be applied as a foliar spray, basal bark and dormant b treatment and in cut surface treatments to include injection, frill or girdle, stump treatment, and by a (helicopter only) application.

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited. FSC 6840
