SUPERSEDING
Interim Amendment-1
April 20, 1989

INTERIM AMENDMENT

TO

COMMERCIAL ITEM DESCRIPTION

CARD, TABULATING, EAM

This interim amendment was developed by the General Services Administration, Office Supplies & Paper Products Commodity Center, New York, NY 10278, based upon currently available technical information. The General Services Administration has authorized the use of this interim amendment as a part of A-A-887A dated March 17, 1981.

Delete "Regulatory requirements." in it's entirety and substitute with the following paragraphs:

"Regulatory requirements. The contractor shall certify that the product offered shall include a minimum of 25% recovered materials. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

"Recovered materials" means waste material and by-products that have been recovered or diverted from solid waste, but such term does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process. In the case of paper and paper products, the term "recovered materials" includes:

a) Post consumer materials such as:
i) Paper, paperboard, and fibrous wastes from retail stores, office buildings, homes and so forth, after they have passed through their end usage as a consumer item, including: Used corrugated boxes, old newspapers, old magazines, mixed waste paper, tabulating cards, and used cordage, and,
ii) All paper, paperboard, and fibrous wastes that enter and are collected from municipal solid waste; and

Check the source to verify that this is the current version before use.

b) Manufacturing, forest residues, and other wastes such as:
i) Dry paper and paperboard waste generated after completion of the papermaking process (that is, those manufacturing operations up to and including the cutting and trimming of the paper machine reel into smaller rolls or rough sheets) including envelope cuttings, bindery trimmings, and other paper and paperboard waste, resulting from printing, cutting, forming, and other converting operations; bag, box and carton manufacturing wastes; and butt rolls, mill wrappers, and rejected unused stock; and
ii) Finished paper and paperboard from obsolete inventories of paper and paperboard manufacturers, merchants, wholesalers, dealers, printers, converters, or others;
iii) Fibrous by-products of harvesting, manufacturing, extractive, or woodcutting processes, flax, straw, linters, bagasse, slash, and other forest residues;
iv) Wastes generated by the conversion of goods made from fibrous material (e.g., waste rope from cordage manufacture, textile mill waste, and cuttings); and
v) Fibers recovered from waste water that otherwise would enter the waste stream."
