COMMERCIAL ITEM DESCRIPTION

PAD, CONTAMINATION CONTROL MAT

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers a disposable, pressure sensitive adhesive, contamination control mat suitable for removing dirt from shoes, wheels, and other objects in military medical treatment facilities.

Salient characteristics:

Shall be a dry, adhesive faced, bacteriocidal impregnated plastic disposable mat suitable for removing dirt from shoes, wheels, and other objects.

A cluster of mats shall be fastened together by adhesive means. Each mat shall be easily removed when dirty without disturbing the underlying mats.

Each mat shall measure approximately 18 inches (45.72 cm) wide by 46 inches (116.84 cm) long.

Workmanship. The contamination control mat shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing 120 contamination control mats in suitable clusters, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

FSC 6530

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

The following National Stock Number is covered by this document:

6530-01-016-7694

Ordering data. Intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order.
