COMMERCIAL ITEM DESCRIPTION

JARS AND SHIPPING BOX, Histopathological Specimen

The General Services Administration has authorized the use of this Commercial Item Description in preference to Military Specification MIL-B-36275A.

This Commercial Item Description covers a disposable, compartmented shipping box containing twelve (12) 4-ounce screwcap plastic jars, suitable for shipping small human specimens to histopathological centers.

Salient characteristics:

Shall be twelve (12) 4-ounce capacity capped plastic jars in a disposable compartmented shipping box, suitable for shipping small specimens to histopathological centers.

The jars shall be capped with metal screwcaps containing inside liners to form leakproof closures.

The jars shall be fabricated of white, opaque, rigid linear polyethylene plastic, or a copolymer of polypropylene and linear polyethylene. The plastic jars shall be able to accept and retain adhesive-backed labels and imprints from marking pencils.

Each jar shall be in the form of a round, wide-mouth, nominal 4-ounce capacity squat-type jar, with a well defined and properly made continuous type exterior thread to accommodate the screwcap closure. The overall dimensions of the jar shall be at least 2-9/16 inches high and 2 inches in diameter at the middle of the jar.

The inner edges of the metal screwcaps shall be sufficiently threaded with a continuous type of thread for closure on the jars. The inside and outside surfaces shall be lacquered or coated for protection against corrosion. In addition, the screwcaps shall be supplied with liners that have facings that are impervious to water. The liners shall be secured to the inside of the screwcaps in such a manner as not to fall out. The liners shall be of sufficient thickness to form effective leakproof seals with the mouth edges of the jars, when the screwcaps are secured on the jars.

The overall dimensions of the jars with screwcap closures shall not exceed 2-13/16 inches height and 2-11/32 inches in outside diameter.

Workmanship. The screwcap jars and shipping box shall be free from defects which detract from their appearance or impair their serviceability.

Unit. Each (EA). One disposable two-piece telescoping box or one self-folding disposable shipping box supplied with partitions to form 12 compartments along with 12 four-ounce plastic jars with screwcaps, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspections. Inspections, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Inspection. Inspection shall be conducted to determine compliance with the specification requirements.

Testing. Testing shall be conducted to determine compliance with the specification requirements. The screwcap jar shall be filled with water and the screwcap closure shall then be applied handtight. The capped jar shall be in an inverted position for at least 1/2 hour before examining for any evidence of leakage around the screwcap closure. Any evidence of leakage shall be cause for rejection. Sampling for inspection shall be in accordance with commercial practice.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

u Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

INSTRUCTIONS: In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE: This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document*(s)* or to amend contractual requirements.
