COMMERCIAL ITEM DESCRIPTION

WARMER, PLASTIC SPECTACLE FRAME

The General Service Aministration has authorized the use of this commercial item description.

This commercial item description covers an indirect bath type warming unit to heat and soften plastic frames for glazing and adjustment.

Salient characteristics:

The warmer unit shall be all-metal construction designed for continuous duty operation with thermostat to keep the glass beads in constant operating temperature so it will be ready to use any time. The unit shall be operated on 115 volt, 60 hertz power source and meeting all applicable UL safety requirements.

The beads holding pan shall have usable depth not less than 2-1/2 inches. The length and width shall be 8 by 4 inches nominal. The pan shall be surrounded by outer shell separated by air space or insulation. All parts which require handling during operation shall remain safe to touch by hand.

The thermostat shall be adjustable externally with the knob container markings in degree F. Operating temperature shall be 250 degree F. with an adjustable range of plus or minus 30 degrees F. As an alternate, the knob can be calibrated with numerals, provide a temperature conversion chart permanently affixed to the casing.

Unit shall have an indicator light that shows "on" when drawing current and "off" when the preset temperature is satisfied.

A metal cover shall be provided to keep the unit clean while not in use. The cover shall remain safe to touch by hand.

A six-foot electrical cord with three-prong plug or a polarized plug shall be attached to the unit.

Provide four stand-off grommets at the unit bottom to isolate the heat from the table top.

The glass beads are not to be provided with the unit.

The unit shall have a name plate with trademark or manufacturer's name, voltage, current, power rating and temperature range.

Workmanship. The warmer shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Each (EA). One warmer as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
