COMMERCIAL ITEM DESCRIPTION

CHART, VISION ACUITY TESTING, Astigmatic and Illiterate "E"

The General Service Administration has authorized the use of this commmercial item.

This commercial item description covers an astigmatic vision acuity chart for testing vision and refraction of illiterates.

Salient characteristics:

Shall be printed on a cardboard made of chipboard paper, coated with non-reflective white background on one side (face) or both sides. The dimensions shall be 11 ± 1/2 inches in width and 24 inches long, tolerance is plus half inch, minus two inches. Thickness shall be 0.045 inch or more. As an alternate, the chart can be lithographed on a white opaque, non-reflective plastic sheet of 0.02 inch or more in thickness.

Top of the chart shall have an astigmatic fan dial having zero to 180 degrees at 10 degrees intervals. The dial shall be designed for testing at 20 feet distance.

Remainder of the chart space shall be printed with a Snellen illiterate tumbling "E" chart starting at 20/200 Snellen scale, then 20/100, 20/70, 20/50, 20/30, 20/25, 20/20, 20/15 and/or below. A solid green line shall be below 20/50 rating and solid red line below 20/20 rating. There shall be arabic numbers printed on one side to indicate line number and Snellen scale corresponding to the number on opposite side.

The ink shall be jet black. All lines shall show sharp edges with no fuzziness.

The eyelet on top shall be 1/4 inch diameter and made of brass or aluminum.

Workmanship. The chart shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Each (EA). One chart as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and

DISTRIBUTION STATEMENT A. Approved for public relese; distribution is unlimited.

Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:

6540-00-388-5800

Ordering data (Intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order).
