COMMERCIAL ITEM DESCRIPTION

BOTTLE, BALSAM, Ground Glass Cap

This Commercial Item Description covers a wide mouth glass bottle with an overfitting glass cap for holding immersion oil or mounting media.

Salient characteristics:

Shall be a wide mouth glass bottle with a fluid capacity of at least 45 milliliters (ml). Shall be supplied with an overfitting glass cap.

Shall be fabricated of clear and colorless soda lime glass.

The overall height, with cap in place, shall not exceed 1-3/4 inches.

The bottle shall have a nominal 1-3/8 inch diameter at the base. The bottle configuration shall include a neck with a ground outer surface.

The cap shall be ground on its inner surface, to fit the ground surface of the bottle and form an effective seal (when the cap is in place) against outside dust or evaporation of the contents in the bottle.

Workmanship. The bottle and cap shall be free from defects which detract from their appearance or impair their serviceability.

Unit. Each (EA). One bottle with cap, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government.

AMSC N/A FSC 6640

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Inspections and testing. Inspections and testing shall be conducted in accordance with commercial practice to determine compliance with specification requirements.

Sampling for inspection and testing. Sampling for inspection and testing shall be conducted in accordance with commercial practice.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:
