COMMERCIAL ITEM DESCRIPTION

PHOROPTER, Additive Type

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers one type of phoropter (refractor) for determining the refractive error in the human eye. It shall be suitable for mounting on the commercial ophthalmic instrument arm such as made by Reichert or Reliance.

Salient characteristics.

Shall consist of a series of spherical lens powers from at least +16.75 diopters through 0.00 to at least -19.00 diopters in successive steps of 0.25 diopters each and means of presentation to each eye individually or both eyes simultaneously.

Shall have cylindrical lens minus powers from 0.00 to not less than -7.50 diopters in successive steps of not more than 0.25 diopters each. Below -2.50 diopters, 2 pairs of auxiliary plug-in or flip-up type cylinders may be furnished. As an alternate, cylinder power shall be from zero to -6.00D, one pair of -2.00D plug-in lenses to provide extensions to -8.00D and one pair of plug-in lenses to provide 0.12D increment.

Shall have axis protractor, graduated in units of not more than 5 degrees.

Shall consist of paired loupes containing Risley rotary prisms, cross cylinders and maddox rods. Maddox rods shall consist of one red and one white lens mounted in paired loupes, or in an auxiliary lens wheel. Risley prisms shall be graduated from zero to 20 prism diopters for each eye in steps of not more than 2 prism diopters each. A pair of ±0.25 diopter cross cylinders. Axis indicator for cross cylinders shall be graduated in units of not more than 5 degrees each.

Shall have integral retinoscopy lenses of +1.50 diopter power.

Shall have an integral corneal aligning device securely mounted.

Instrument shall be supplied with the following accessories:

a. One pair of red lenses either auxiliary or built in.
b. One pair of ±0.50 diopter cross cylinders, auxiliary or built in.
c. Three pairs of sterilizable white nylon face shields.
d. Near point test card holder and rod graduated in inches and centimeters. Card holder shall have integral card or as an alternate, no less than 4 plastic reading cards or a rotary test card shall be provided.

Workmanship. The instrument shall be free from defects which detract from its appearance or impair its serviceability.

FSC 6540

DISTRIBUTION STATEMENT A. Approved for public release, distribution is unlimited.

Unit. Each (EA). One phoropter with accessories, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations.

INSTRUCTIONS In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)* and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
