COMMERCIAL ITEM DESCRIPTION

LUBRICANT, DENTAL HANDPIECE

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers a dental low-speed handpiece lubricant suitable for maintenance lubrication.

Salient characteristics:

The lubricant shall be suitable for use with NSN 6520-00-138-2308, Handpiece, Dental. The lubricant shall be a light colored lubricating oil with a slight petroleum odor.

Material. The lubricant shall have the following composition:

Zinc Dithiophosphate	0.85-1.00%
Polymethacrylate	0.05% maximum
Petroleum Hydrocarbon	Remainder

The flashpoint shall be 375 to 385 degrees Farenheit (^{o}F) when tested in accordance with American Society Test Method (ASTM) D 93 Pensky-Martens Closed Tester. The specific gravity shall be 0.85 to 0.90 when tested in accordance with American Society Test Method (ASTM) D 1298, Hydrometer Method.

Instructions. Adequate and accurate instructions for use shall accompany each unit. In addition, two copies of the instructions shall be forwarded to the contracting officer for information purposes.

Workmanship. The lubricant shall be free from foreign particles, sediment or any other defects which detract from its appearance or impair its serviceability.

Unit. Each (EA). One bottle containing 0.5 oz to 0.6 oz of lubricant, as specified, constitutes one unit.

AMSC N/A FSC 6520

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government, upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Sampling for inspection. Sampling for inspection shall be conducted in accordance with MIL-STD-105. Where feasible, the same sample shall be used for the determination of two or more inspection characteristics. The unit of product for inspection purposes shall be one bottle. Unless otherwise specified, sampling for examination shall be conducted at inspection level II, AQL 2.5, and sampling for tests (when applicable) shall be conducted at inspection level S-1, AQL 1.0.

Contractor certification. The contractor shall certify that the product offered meets the salient charcteristics of this description and conforms to the producers' own drawings, specification, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the

offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:

NSN	ITEM IDENTIFICATION
6520-01-159-3643	LUBRICANT, DENTAL, HANDPIECE, .5 oz. (14.79 ml)

Ordering data. Intermediate/exterior quantities, labeling, and marking must be as specified in the contract and/or order.
