# COMMERCIAL ITEM DESCRIPTION

## LITTER, SEA-AIR RESCUE, MEDICAL EVACUATION

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers a medical evacuation, sea-air rescue floatable litter.

Salient characteristics:

The evacuation litter shall be cloth with a metal frame constructed of stainless steel or other similar corrosion-resistant high-strength metal. The litter shall have approximate dimensions of 80 inches long x 16-1/2 inches wide. The litter shall weigh less than 40 pounds with case and accessories. It shall be capable of being folded in half to approximately 40-1/2 inches long and easily transported into confined spaces. The evacuation litter shall be capable of being hoisted in a vertical or horizontal attitude and capable of being carried without the use of hands. It shall be capable of providing buoyancy for an unconscious adult patient while maintaining a face up attitude. The floatation shall be a closed-cell ensolite foam, which shall be encased in nylon pack cloth, 420 denier, with urethane coating. The litter shall include patient restraint straps utilizing a polyester hook tape with a nylon loop tape. It shall be provided with a carrying case and capable of being backpack transported. The case and stretcher covering material shall be of urethane coated material.

Workmanship. The litter shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Each (EA). One litter, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.
