MIL-F-36060C
AMENDMENT-1
4 February 1972

MILITARY SPECIFICATION

FORCEPS, UTERINE, CURVED, SKENE

This Amendment forms a part of Military Specification MIL-F-36060C, dated 13 August 1971, and is mandatory for use by all Departments and Agencies of the Department of Defense.

Page 3:

3.3 Hardness. Delete entirely and substitute:

"3.3 Hardness. After proper stress relieving, the shanks and jaws of the uterine forceps shall have a Rockwell hardness of C 40 to C 45."

3.4.1 Type I forceps (Tenaculum). In fifth sentence, insert ", feathers" after "cracks".

3.4.2 Type II forceps (Vulsellum). In fifth sentence, insert ", feathers" after "cracks".

Page 4:

3.8 Locks. On first line, delete "shanks" and substitute "locks".

Page 8:

4.4.1 Butting test. Delete entirely and substitute:

"4.4.1 Butting test. The forceps shall be opened and closed five times, without exerting lateral force. The jaws shall be observed for butting in the closed position."

4.4.3 Shank side play. Delete entirely and substitute:

"4.4.3 Shank side play. The forceps shall be opened and closed without exerting lateral force. The jaws shall be observed for reversal of position."
