MILITARY SPECIFICATION SHEET

ELECTRON TUBE, POWER, TYPE 6303A

This amendment forms a part of Military Specification Sheet MIL-E-1/1424A(NAVY) 17 October 1969, and is approved for use by all Departments and Agencies of the Department of Defense.

Page 1

GENERAL: Delete "Qualification - Required" and substitute "First article inspection - Required (See note 5)."

Page 2

Add new note 5 as follows:

"5. First article inspection shall consist of performing all tests listed on this tube specification sheet. The sample size and allowable defects shall be in accordance with MIL-E-1, Qualification, Samples and acceptance criteria. Three copies of the test report, prepared in accordance with MIL-STD-831, shall be forwarded to the purchasing activity for evaluation by the preparing activity.

Invitation for bids should provide that the preparing activity reserves the right to waive the requirements for first article samples as to those bidders offering a product which has been previously procured or tested by the Government, and that bidders offering such products who wish to rely on such production or test, must furnish evidence with the bid that prior Government approval is presently appropriate for the pending procurement."
