The pad shall be of sufficient depth to restrict movement of the lapel button.

NOTES:
1. The term (REF) refers to the measurements taken by the Government furnished obverse hub or die.

2. The manufacturer may deviate from MIL-DTL-11484 by applying a nickel underplating prior to applying the requisite 24K gold plating.

CHANGES FROM PREVIOUS ISSUE: The margins of this specification are marked with vertical lines to indicate where changes from the previous issue were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous issue.
