DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

Public reporting burden for collection of this information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302, and to the Office of Management and Budget, Paperwork Reduction Project (0704-0188), Washington, DC 20503.

1. TITLE	2. IDENTIFICATION NUMBER
ELECTROMAGNETIC COMPATIBILITY PROGRAM PROCEDURES	DI-EMCS-81528

3. DESCRIPTION / PURPOSE

3.1 The Electromagnetic Compatibility Program Procedures (EMCPP) provides data necessary to demonstrate that electromagnetic environmental effects (E3) requirements have been met and that they will be satisfied throughout the life cycle of the platform, system, or equipment.

4. APPROVAL DATE	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC APPLICABLE	6b. GIDEP APPLICABLE
961114	N/EC		

7. APPLICATION / INTERRELATIONSHIP

7.1 This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by the specific and discrete task requirements as delineated in the contract.

7.2 This DID may be applied in the procurement of major systems that must operate in friendly or adverse electromagnetic environments.

8. APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER
		N7212

10. PREPARATION INSTRUCTIONS

10.1 Format. The report shall be in contractor format.

10.2 Content. The report shall contain the following:

10.2.1 Applicability. The EMCPP shall describe the platform, system or equipment to which it applies.

10.2.2 Application of EMC Standards. The EMCPP shall list the commercial and military standards applied to achieve electromagnetic compatibility.

10.2.3 Analysis. The EMCPP shall describe the analytical models and tools used to verify compliance, when such models and tools are used in lieu of measured data.

10.2.4 Electomagnetic Environmental Effects (E3). The EMCPP shall include data and analyses to demonstrate that the platform, system or equipment complies with the contractual requirements for electromagnetic compatibility in the following areas:

a. Electromagnetic compatibility with other equipment, including COTS and NDI products.
b. Hazards of electromagnetic radiation of ordnance, fuels, and personnel.
c. Lightning.
d. Spectrum certification
e. Bonding, grounding, and shielding.

11. DISTRIBUTION STATEMENT

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.
