DATA ITEM DESCRIPTION

Title: TEARDOWN DEFICIENCY REPORT

Number: DI-PSSS-81534A
Approved Date: 20160608
AMSC Number: F9670
Limitation: N/A
DTIC Applicable: No
GIDEP Applicable: No
Preparing Activity: 11 (AFLCMC/EZSC)
Project Number: PSSS-2015-024
Applicable Forms: N/A

Use/Relationship: The Teardown Deficiency Report provides a factual narrative analysis of a deficiency which has been noted on equipment.

a. This Data Item Description (DID) is applicable when contractors are responsible for maintaining custodial records for government property being repaired.

b. This DID contains the format, content and intended use information for the data deliverable resulting from the work task described in the solicitation.

c. This DID supersedes DI-ALSS-81534.

Requirements:

1. Reference documents. None.

2. Format. The Teardown Deficiency Report shall be in the contactor's format.

3. Content. This report shall include an analysis of the deficiency which includes cause of failure, recommended corrective action and recommendations for actions to prevent recurrence of the failure/deficiency, and the applicable category of the failure defined as follows:

a. Workmanship and non-conformance. Any deficiency (e.g., physical, chemical, electrical, functional) noted in materiel which is attributed to non-conformance to applicable specifications, drawing, standards, or Technical Order (TO); or workmanship during manufacture, repair modification or maintenance.

b. Material failure. The failure of an end item which was attributable to neither the repair nor the manufacturing process, but was due to an unpredictable failure of an internal component or sub-assembly.

c. No defect found/could not duplicate: Investigation of the exhibit revealed no deficiency. Equipment conforms to specifications and TO standards and procedures.

d. Technical data, deficiency: Technical data (including TOs, drawings, and work specifications) was deficient or inadequate so as to cause the deficiency/failure on the item.

e. Field induced deficiency. Deficiency confirmed by the investigation to have been caused by operator error, i.e., wrong voltage applied, misaligned, maladjusted, mishandling, or not used for intended purpose.

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

f. Maintenance deficiency. An unfavorable characteristic of an item that impedes the accomplishment of maintenance operations which results in excessive maintenance operations and/or in excessive maintenance man-hour consumption.

g. Design deficiency. A condition that limits or prevents the use of material for purpose intended or required where the material meets all other specifications.

h. Handling or shipping deficiency. A deficiency induced by improper handling or shipping, i.e., improper packaging, which prohibits the use for intended purpose.

i. Packaging specifications inadequate - not complied with. Unsatisfactory conditions including item damage resulting from improper packaging.

End of DI-PSSS-81534A.
