INTERIM AMENDMENT

TO

FEDERAL SPECIFICATION

PEN, RULING, DRAFTSMAN'S: RAILROAD, SWIVEL BLADE, 5-INCH

This interim amendment was developed by the General Services Administration, Federal Supply Service, Washington, D. C. 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this interim amendment as a valid exception to Federal Specification GG-P-133b, dated May 24, 1966.

PAGE 2

Paragraph 3.5 Delete and substitute:

3.5 Handle tube. Unless otherwise specified (see 6.1) the handle tube shall be copper-nickel-zinc alloy, corrosion-resisting steel, hard black rubber (ebonite), or aluminum. If aluminum is used, it shall be anodized. The inside diameter of the tube shall be of such size as to permit the handle rod to rotate freely. The ends of the tube shall be fitted with suitable tips. The handle tube and the handle rod shall remain stationary with respect to each other when the clamp nut is tightened.

PAGE 5

Paragraph 6.1-(b) Delete and substitute:

(b) Material if other than specified (see 3.5).
