MILITARY STANDARD

STANDARD GENERAL REQUIREMENTS FOR COLOR AND MARKING OF ARMY MATERIEL

TO ALL HOLDERS OF MIL-STD-1473A(MI):

1. The following pages of MIL-STD-1473A(MI) have been revised and supersede the pages listed:

NEW PAGES	DATE	SUPERSEDED PAGE	DATE
1	29 July 83	1	10 Feb 76
2	29 July 83	2	10 Feb 76
3	29 July 83	3	10 Feb 76
4	29 July 83	4	10 Feb 76
5	29 July 83	5	10 Feb 76
6	29 July 83	6	10 Feb 76
9	29 July 76	9	10 Feb 76
10	29 July 83	10	10 Feb 76
15	29 July 83	15	10 Feb 76
16	29 July 83	16	10 Feb 76
16A	29 July 83	(New Page)	
16B	29 July 83	(New Page)	

2. Make the following pen and ink changes:

a. Page ii, paragraph 2:

(1) line 2, change "AMSMI-RCS" to "DRSMI-RSDS."

(2) line 3, change "35809" to "35898."

b. Page iii: Delete second paragraph.

c. Page iv:

(1) add "4.4 Bar coding . . . . . 6."

(2) add "5.1.2.5 Pictorial Symbols . . . . . 10."

d. Page v: Delete paragraph "5.3.2.3.3 Piping . . . . . 11."

e. Page vi:

(1) add new paragraph "5.5.6.5 Tactical Lasers . . . . . 16."

(2) delete paragraph "5.7.4 Gas Mask Canisters . . . . . 18."

AREA HFAC

Source: https://assist.dla.mil -- Downloaded: 2026-10-24T00:28Z
Check the source to verify that this is the current version before use.

(3) change "5.7.5" to "5.7.4."

(4) delete paragraph "5.7.6 Radioactive Material . . . . . 18."

f. Page 7:

(1) Table I: AMBULANCE, add after Semi-Gloss Green "or Gloss White 17875."

(2) Table I: CALIBRATION VEHICLES, add at bottom "Wall, Ceiling, Doors, Fittings and Mounted Equipment, Semi-Gloss Green, 24533."

g. Page 8:

Table I: FIREFIGHTING VEHICLES, add below Gloss Red "Gloss Yellow (when in non-tactical use) 13538."

h. Page 11: delete paragraph 5.3.2.3.3.

i. Page 14:

(1) Table II: In second row after "Ceilings" add "and walls."

(2) Table II: Control/Display Panels, change "24692" to "26492."

(3) Table II: Panel Lettering, Change "Lettering" to "Labeling."

j. Page 17: paragraph 5.5.10, line 2, change "1968" to "1975."

k. Page 18:

(1) delete paragraph 5.7.4.

(2) change "5.7.5" to "5.7.4."

(3) delete paragraph 5.7.6.

l. Page 24, Figure 1, delete "DANGER--" in front of "2300 VOLTS."

m. Page 28, USER ACTIVITIES, change "EL" to "CR, ER."

n. Page 29, paragraph 20.1, line 5: change "AR 750-X" to "AR 750-58."

o. Page 30, paragraph 20.3, add:

"TB MED 523 Control of Hazards to Health from Microwave and Radio Frequency and Ultrasound."

Source: https://assist.dla.mil -- Downloaded: 2026-10-24T00:28Z
Check the source to verify that this is the current version before use.

p. Page 31:

(1) add to B, "Bar Coding---------- 4.4 6"

(2) delete from C, "Canister, Gas Mask---------- 5.7.4 18"

q. Page 32:

(1) add to N, "Nuclear Weapons---------- 5.4.4.5 15."

(2) Nuclear Reactor System, change "5.7.5" to "5.7.4."

r. Page 33:

(1) add to P, "Pictorial Symbols---------- 5.1.2.5 10."

(2) delete from R, "Radioactive Material---------- 5.7.6 18."

(3) add to T, "Tactical Lasers---------- 5.5.6.5 16."

3. RETAIN THIS NOTICE AND INSERT BEFORE THE TABLE OF CONTENTS.

4. Holders of MIL-STD-1473A will verify that page changes and additions indicated above have been entered. The notice pages will be retained as a check sheet. This issuance, together with appended pages, is a separate publication. Each notice is to be retained by stocking points until the Military Standard is completely revised or cancelled.

STANDARD GENERAL REQUIREMENTS FOR COLOR AND MARKING OF ARMY MATERIEL

1. SCOPE

1.1 Scope and Purpose. - This standard prescribes general requirements for color and marking of Army materiel. This standard does not prescribe the many special color and marking requirements specified by Army design activities; nor is it intended to prescribe their finishes, surface preparations or related treatments for preservation and coating. Similarly, it is not intended that this standard apply to exterior colors of Army equipment under tactical conditions in active combat theaters of operation where such equipment may be painted Lusterless White No. 37875 in snow areas, or other colors or patterns deemed necessary for camouflage or for compliance with host country requirements.

1.2 Application. - Unless otherwise specified by the procuring activity general color and marking of Army materiel shall be as prescribed herein.

2. REFERENCED DOCUMENTS

2.1 Issues of Documents. - The following documents of the issue in effect on the date of invitation for bids or request for proposal form a part of this standard to the extent specified herein.

(Applications for copies of ANSI publications should be addressed to the American National Standards Institute, Inc., 1430 Broadway, New York, New York 10018)

(Copies of specifications, standards, and other publications required by contractors in connection with specific procurement functions should be obtained from the procuring agency or as directed by the contracting officer.)

3. DEFINITIONS

Forest Green - Forest Green shall be in accordance with MIL-C-46168, MIL-E-52798 or MIL-E-52835, as applicable. (Forest Green has not been assigned a chip number in Federal Standard 595 at this time.)

4. GENERAL REQUIREMENTS

4.1 Colors

4.1.1 Numerical Designation - The numerical designations of colors herein refer to FED-STD-595 and the colors so designated shall conform to that standard.

4.1.2 Controls and Displays - Except where specified to the contrary herein, color coding of controls and displays shall be in accordance with MIL-STD-1472.

4.1.3 Off-the-Shelf Equipment - Repainting of off-the-shelf equipment, subject by law to competitive procurement, will not be required in order to meet the criteria herein. However, a criterion for selecting off-the-shelf commercial or Government equipment shall be the degree to which the equipment conforms to this standard. Where off-the-shelf equipment requires modification in order to interface with other equipment, the modification, if it affects painted surfaces, shall comply with the criteria herein.

4.2 Marking

4.2.1 Identification, General - Identification marking of all items of Army materiel shall conform to MIL-STD-130, as applicable.

4.2.2 Shipment and Storage - Army materiel shall be marked for shipment and storage in accordance with MIL-STD-129, as applicable. The labeling of lifting and tiedown points shall conform to MIL-STD-1472.

Source: https://assist.dla.mil -- Downloaded: 202610-24T00:28Z
Check the source to verify that this is the current version before use.

4.2.3 Controls and Displays - Except where specified to the contrary herein, controls, displays, and other items of equipment that must be located, identified, read or manipulated, shall be appropriately and clearly labeled to permit rapid and accurate human performance; however, labels are not required on equipment or controls where use is obvious to user (e.g., functional label on aircraft control stick).

4.2.4 Labeling, Lettering, and Numeral Design - Where not specified to the contrary herein, labeling, lettering, and numeral design shall conform as applicable, to the requirements of MIL-STD-1472.

4.3 Suplementary Data and Color/Marking for Specific Items - The publications listed in the Appendix should be consulted for color and marking information supplementary to the requirements herein and for specific systems and equipment.

4.4 Bar Coding - Bar coding of unit packs, outer contrainers and selected documents shall conform to MIL-STD-1189.

5. DETAIL REQUIREMENTS

5.1 Vehicles, Construction Equipment, and Materials Handling Equipment

5.1.1 Color - The standard color for applicable exterior and interior surfaces of vehicles, construction equipment, and materials handling equipment is Lusterless Forest Green. All such equipment shall be painted this color, except as indicated in Table I. Colors applicable to personnel stepping areas do not preclude use of grit or similar antislip material. If commercial vehicles are to be used in tactical situations, the interior of the vehicle cab should be a dark color (i.e., brown, black, or dark green).

5.1.2 Marking

5.1.2.1 Administrative Wheeled Vehicles - Administrative wheeled vehicles shall be marked as specified in MIL-STD-1223. (Also see 4.3)

5.1.2.2 Combat and Tactical Vehicles - Combat and tactical vehicles shall be marked as specified in MIL-STD-642. Tactical bulk fuel transporters and fuel servicing vehicles shall have required safety exterior markings per Department of Transportation (DOT) regulations governing the transportation of hazardous materials in tank motor vehicles. (Also see 4.3)

TABLE I (Continued)

VEHICLES, EQUIPMENT, SURFACE	COLOR	FED-STD-595
MOBILE ELECTRONIC/COMMUNICATION EQUIPMENT ENCLOSURES	See Table II	
FACILITIES ENGINEERING VEHICLES NOT ASSIGNED TO TACTICAL UNITS (Including attachments used for highway construction or maintenance) Exterior and Interior Surfaces	Gloss Yellow	13538
RESEARCH AND DEVELOPMENT TEST PROJECT VEHICLES Exterior and Interior Surfaces	As specified by the procuring activity	
VAN TYPE VEHICLES	See Table II	

Source: https://assist.dla.mil -- Downloaded: 202610-24T00:28Z
Check the source to verify that this is the current version before use.

5.1.2.3 Construction Equipment and Material Handling Equipment - See 4.3.

5.1.2.4 Other - Vehicles such as military design ambulances shall be marked as specified in MIL-STD-642. (Also see 4.3)

5.1.2.5 Pictorial Symbols - Symbols to be shown on military vehicle instruction plates in addition to the text shall conform to MIL-STD-1271. (Also see 4.3)

5.2 Vessels

5.2.1 Color - See 4.3.

5.2.2 Marking - Marking and labeling of U.S. Army marine craft shall be in accordance with MIL-M-11745.

5.3 Railroad Equipment

5.3.1 Color - Railroad equipment shall be painted as follows:

a.	Railway motive power and work equipment	Semi-Gloss Black No. 27038
b.	Gondola, hopper and tank cars	Gloss Black No. 17038
c.	Hospital, kitchen car, passenger, freight and caboose exteriors	Gloss Olive Green No. 14064

5.3.2 Marking

5.3.2.1 Agency Identification - The agency identification "US ARMY" shall be applied on both sides of all railroad equipment in Gloss White No. 17875; however, in theaters of operation, it will not be applied to freight cars or cabooses.

5.3.2.2 Identification Numbers

5.3.2.2.1 Location - Identification numbers, prescribed by the procuring activity, shall be marked on both sides and on each end of all locomotives, locomotive tender units, work equipment, and rolling stock.

Source: https://assist.dla.mil -- Downloaded: 202610-24T00:28Z
Check the source to verify that this is the current version before use.

5.4.4.2 Pipe, Hose, and Tube Lines. - The function, content and, if applicable, the hazard and direction of flow, of pipe, hose, and tube lines used in missile systems and systems-peculiar equipment that is required exclusively for test, maintenance, servicing and/or operation as an integral part of the functional system, shall be color coded (and marked) in accordance with MIL-STD-1247. All lines external to these systems shall be color coded in accordance with MIL-STD-101.

5.4.4.3 Training Aids. - Color coding primarily for graphic and demonstrator-type training aids utilized in operational and maintenance guided missile training shall be in accordance with MIL-STD-709.

5.4.4.4 Other. - Items of other categories utilized in missile systems shall be marked in accordance with applicable requirements herein.

5.4.4.5 War Reserve and Training Nuclear Weapons and Containers. - Required markings for these items are contained in appropriate Joint Atomic Weapons publications.

5.5.1 Communications-Electronic Shelters

5.5.1.1 Color. - Communications-electronic shelters shall be painted as follows:

5.5.1.1.1 Exteriors. - Exterior painted surfaces shall be lusterless forest green solar heat reflecting paint produced in accordance with MIL-C-46168, MIL-E-52798 or MIL-E-52835. (Also see Table II.)

5.5.1.1.2 Interiors. - Interior colors of mobile communication-electronic equipment enclosures, occupied by personnel during operation, maintenance, or control, shall conform to Table II.

5.5.1.2 Marking. - Marking shall conform to Table II and other applicable requirements of this standard.

5.5.2 Cables

5.5.2.1 Electrical Cable and Cord. - Color coding and identification marking of electrical cable and cord shall conform to MIL-STD-686.

5.5.2.2 Cable for Transmission of Telephone, Telegraph, and Teletype Signals. - Color coding and marking of cables for transmission of telephone, telegraph, and teletype signals (including singles, pairs, multiples and quads used in other applications such as intercommunication, loudspeaker and microphone cables) shall be in accordance with MIL-STD-685.

Source: https://assist.dla.mil -- Downloaded: 2026-10-24T00:28Z
Check the source to verify that this is the current version before use.

5.5.2.3 Vehicular Use - Color and marking of high-tension and low-tension cables for vehicular use shall conform to MIL-C-3702 and MIL-C-13486, respectively.

5.5.2.4 Thermocouples - Color and identification coding for all single and duplex thermocouple wires and all thermocouple extension wires shall conform to MIL-STD-687.

5.5.3 Electronic Items - Marking of electronic items, except marking for shipment and as otherwise specified by an applicable Government document covering the item on which the marking appears, shall conform to MIL-M-13231.

5.5.4 Electronic Parts - Electronic parts shall be color coded in accordance with MIL-STD-1285.

5.5.5 Resistors - Resistor color code shall conform to MIL-STD-1285.

5.5.6 Warning Markings

5.5.6.1 Electronic Equipment - Warning labels, signs and markings on electronic equipment shall be in accordance with MIL-STD-454, Req. 1. Size and format shall conform to Figures 1 and 2 herein.

5.5.6.2 Radio Frequency Hazard - The Radio Frequency Radiation Hazard Warning Symbol shall be in accordance with ANSI C95.2 - 1975.

5.5.6.3 Laser Hazard - Permanently affixed labels should be in accordance with ANSI Z136.1-1980.

5.5.6.4 Safety. - See Paragraph 5.9.

5.5.6.5 Tactical Lasers - Tactical lasers may be exempted from FDA requirements provided the lasers are clearly identified by the label shown below, or by other means.

CAUTION
THIS ELECTRONIC PRODUCT HAS BEEN EXEMPTED FROM FDA RADIATION SAFETY PERFORMANCE STANDARDS PRESCRIBED IN THE CODE OF FEDERAL REGULATIONS, TITLE 21, CHAPTER I, 76EL-01DOD ISSUED ON 26 JULY 1976. THIS PRODUCT SHOULD NOT BE USED WITHOUT ADEQUATE PROTECTIVE DEVICES OR PROCEDURES.

Check the source to verify that this is the current version before use.

5.5.7 Test Equipment

5.5.7.1 Bench Use - Test equipment for bench use shall be smooth, Semi-Gloss Gray No. 26037.

5.5.7.2 Field Equipment - Test equipment for field testing shall be a smooth Lusterless Forest Green.

5.5.7.3 Flight Line Equipment - Test equipment for flight line use shall be smooth, Gloss Yellow No. 13538.

5.5.8 Hookup Wire - Identification coding of hookup wire shall conform to MIL-STD-681.

5.5.9 Connections - Connections for electric assemblies shall be marked in accordance with MIL-STD-195.
