MILITARY SPECIFICATION SHEET

TOPOGRAPHIC SUPPORT SYSTEM (TSS):

SYNTHESIS SECTION, TOPOGRAPHIC

SUPPORT SET, SEMITRAILER MOUNTED

The complete requirements for procuring the synthesis section described herein shall consist of this document and the latest issue of MIL-T-52964(ME).

1. REQUIREMENTS

1.1 Description. The synthesis section shall be as shown in Figure 1 and shall be equipped with the components listed in SC 6675-97-CL-E53.

1.2 Components. Components of the synthesis section shall be manufactured and operate in conformance with the component's technical specifications and literature.

1.3 Special provisions. Custom built shelving (metal or wood) shall be constructed to house the foil and paper used with the Diazo Printer (see component list for description of foil, paper and quantities required). The quantities shall be stored under the table.

2. TESTS

2.1 Component test. The component test procedure shall be written and conducted by the contractor to determine the component's conformance to its' technical specifications and literature. The test shall be conducted in a van environment. The component test shall be conducted twice; once prior to any Section 4 testing and once after completing all testing as specified in Section 4 of the general specification.

2.1.1 Test items. The following components of the synthesis section shall be tested:

Planimeter
Diazo Printer
Reflecting Projector
Viewer Printer

Nonconformance to 1.2 shall constitute failure of this test.

3. NOTES

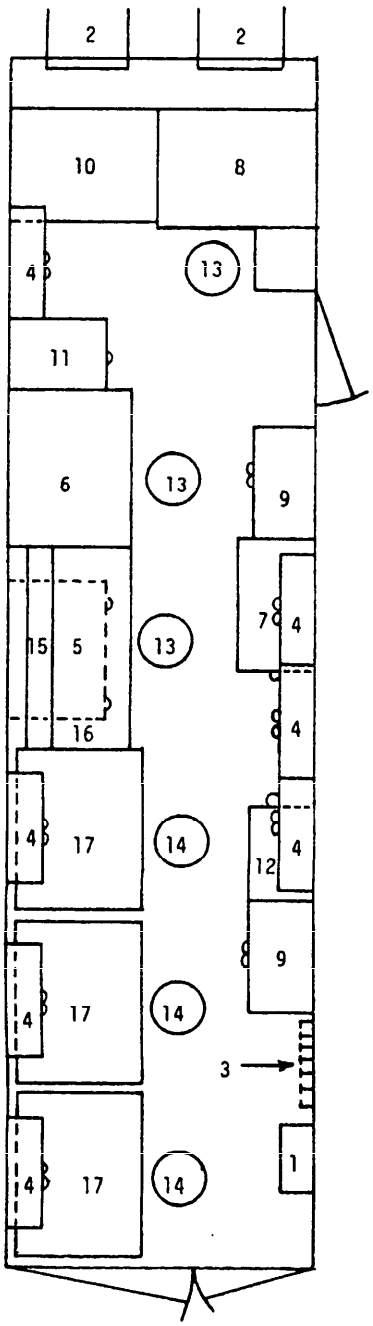

3.1 Intended use. The synthesis section (with assigned personnel) will produce military geographic information which includes such analyses as the potential for cross-country movement, the availability of cover and concealment, the extent of fields of fire, the location of suitable drop zones and helicopter landing areas, the capacities of lines of communications, and the best routes of conducting map-of-the-earth-flying. Factor overlays and other information holdings of the information section comprise the basic sources for preparing requested studies. If time permits, the staff sends to the collection section requests for information to fill gaps in available holdings or to obtain more current data. Camera ready copy and other final drafting will be prepared in the Cartographic Revision Subsystem.

STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

OMB Approval
No. 22-R255

INSTRUCTIONS: The purpose of this form is to solicit beneficial comments which will help achieve procurement of suitable products at reasonable cost and minimum delay, or will otherwise enhance use of the document. DoD contractors, government activities, or manufacturers/ vendors who are prospective suppliers of the product are invited to submit comments to the government. Fold on lines on reverse side, staple in corner, and send to preparing activity. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements. Attach any pertinent data which may be of use in improving this document. If there are additional papers, attach to form and place both in an envelope addressed to preparing activity.
