INTERIM AMENDMENT

TO

FEDERAL SPECIFICATION

BELT, SAFETY, INDUSTRIAL, AND STRAP,
SAFETY, INDUSTRIAL: LINEMAN'S TYPE

This interim amendment was developed by the Standardization Division, Federal Supply Service, General Services Administration, Washington, D.C., 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this interim amendment as a valid exception to Federal Specification KK-B-151f, dated March 2, 1967.

PAGE 1

Paragraph 1.2.2.2 - Delete and substitute:

1.2.2.2 Type II strap shall be 84 inches in length.
