COMMERCIAL ITEM DESCRIPTION

WASTE RECEPTACLE, STEP-ON, PLASTIC, WITH LINER

The General Services Administration has authorized the use of this commercial item description.

Salient characteristics:

Type: I - 3 gallons (± 2 quarts)
II - 5 gallons (± 2 quarts)

Material:

(1) outer container, cover, inner pail and foot pedal, polyethylene, polypropolyene, high-impact polystyene, or combination thereof.
(2) bail for inner pail, corrosion resistant metal
(3) cover lifting mechanism, corrosion resistant metal or plastic material as specified above.

Color: white or natural

Precautionary label, clearly visible, and stating at a minimum:

"CAUTION COMBUSTIBLE CONTAINER - DO NOT USE FOR FLAMMABLE MATERIALS"

Construction:

Outer container - Seamless, rigid, one-piece construction with suitable, non-corrosive, step-on cover lifting mechanism enclosed in the outer container with foot pedal protruding out and through the front of the container.

Inner pail - Seamless, rigid, one-piece construction, with non-corrosive metal bail to lay on the rim of inner pail or hang outside the outer container. Supported within the outer-container by beaded or rolled out top rim or other suitable means.

Cover - With sides, securely hinged to the back of the outer container, reinforced for rigidity, and activated by foot pedal and lift mechanism at bottom of outer pail.

Performance: The inner pail shall not leak when filled to the rim with water.

Workmanship: Free from flash, blisters, cracks, chips, sharp fins, lumps and imbedded foreign material, mold marks, and other defects affecting appearance, serviceability or proper operation of the container.

Not warped, twisted, malformed, crazed, pitted, heat marked, blistered, free of bubbles and uneven surfaces.

Foot pedal and cover lift mechanism to operate smooth and easy. Foot pressure to the pedal shall not affect stability or stationary position of an empty receptacle.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description, and that the product conforms to the producer's own drawings, specifications, standards and quality assurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered materials. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, Packing and Marking. The packaging and packing shall be in accordance with normal commercial practice and shall assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling and storage. The shipping container shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification. Marking shall be as specified in the contract or order.
